REPORT OF THE COMMISSIONER OF INDIAN AFFAIRS.

DEPARTMENT OF THE INTERIOR,
OFFICE OF INDIAN AFFAIRS,
Washington, October 2, 1911.

SIR: I have the honor to hand you the eightieth annual report of the Office of Indian Affairs, covering the period from July 1, 1910, to June 30, 1911.

During the past year the efforts of the 6,000 persons who are the Indian Service have been more harmoniously, intensively, and vigorously employed than ever before in preparing the Indians to assume their full responsibilities as Americans, the chief of which is self-support. There is nothing derogatory to previous years in this statement because the fruits of the past year are the result, in some cases of months, but in more cases of years and of many years of growth.

All activities employed in this steadily increasing encouragement of the Indians toward self-support are governed by the two main aims of the service—first, to prepare the Indians for the lifting of the Government's hand, and, second, to lift the hand. The first aim covers all the things we are trying to do to prepare the Indians to bear their new responsibilities. Luckily the day has gone by when the sink-or-swim policy is the central idea in a great economic and sociological problem like Indian affairs; even more luckily the day has passed when an excess of sentiment could defend its position in robbing any human being of that strengthening process of mind and muscle which comes from bearing heavier and heavier, and often seemingly impossible, loads. In fine, we are working overtime to get the Indians ready. Under the second head comes the problems of how to let go, where Indians in one way or another have grown self-sufficing.

HEALTH.

First in importance come the means employed to protect and improve the health of the Indians—a part of the service in which the office has a medical supervisor, 100 regular and 60 contract

physicians, 54 nurses, and 88 field matrons. In the Indian community, as in other communities, there is insistent concern for the cure of existing disease, but the great emphasis is put upon prevention of disease and increase of personal efficiency. In carrying out preventive measures a very promising beginning has been made in having physicians secure intimate information about the living conditions of each individual, by going from house to house and camp to camp, and examining closely into hygienic conditions. This aggressive campaign awakens the Indians to the danger of tuberculosis, trachoma, and other infectious diseases; and through simple instruction and suggestion helps them to some understanding of how they can improve their living conditions and extricate themselves from the unsavory and unsanitary environment in which many of them have existed.

Results are already apparent. A physician at White Earth, Minn., reports that upon his second round of visits he found marked improvement in 50 per cent of the homes. The physician at Leupp, Ariz., after spending 21 days among the camps, submitted a medical survey that may well serve as a model for the service; he found, too, that his personal visits did much to overcome the Indians' reserve and their repugnance to modern medical attention, for his treatment was eagerly received and many of his patients in the camps later sought him at the hospital for further attention.

The increasing influence of trained physicians decreases the dependence upon medicine men. These medicine men, however, can be made very helpful, as was shown by the superintendent of the Northern Cheyenne Reservation, who secured the chief medicine man of the tribe as the physician's most devoted assistant and the efficient dispenser of his drugs.

Attacking the problem of disease in a slightly different way, one of the physicians has prepared a series of stereopticon slides and motion-picture films to illustrate in juxtaposition the ordinary habitations of careless Indians and the pleasant, healthful homes of Indians who have taken advantage of the opportunities the Government has given. While throwing these pictures upon a screen he gives a simple, pointed talk upon outdoor exercise, ventilation, disposal of garbage, care of milk, water supply, tuberculosis, trachoma, and kindred subjects. On an extended tour among the schools and agencies in Montana, California, Arizona, and New Mexico he has given 52 of these educational entertainments before audiences of Indians and employees aggregating more than 10,000. The medical supervisor, too, as he travels the field carries sets of slides and gives numerous illustrated talks in the evening, and several superintendents have received slides and typewritten lectures to use at their reservations and schools.

The doctor who lectures has also given each agency and school he has visited a complete sanitary inspection and has operated upon 192 cases of trachoma. In this way he supplements the work of the medical supervisor and of the physicians who are specially engaged with trachoma.

One of the most important purposes of the sanitary inspection given schools and agencies has been a real beginning in eliminating toilet and bath rooms from basements. As fast as possible all plumbing is being installed above grade in separate structures connected with the main building through covered passages. The removal from basements of rooms used by students for any purpose whatever will mark a distinct sanitary advantage; and the abolition of half-underground playrooms, the gloomy cheerless atmosphere of which is utterly antagonistic to any spirit of healthful play, will accomplish much more by freeing the children from most depressing influences.

The field matrons in the midst of their varied activities both prepare the way for physicians and augment their service. They are peculiarly able to give directions that reduce the high mortality among infants, and mitigate the severity of children's diseases. By way of illustration, the superintendent of Southern Ute, Colo., reports a very much less percentage of deaths among children than in former years, with a resulting increase in the census roll; this change he credits to the matron assigned to that territory.

As another preventive measure, orders have been issued that every effort be made to vaccinate Indians not immune from smallpox—heretofore a recurring scourge, particularly in the Southwest. The returns show that many Indians submitted to vaccination, and that by tact and persistence vaccination will soon become so common as to remove the present peril. It happens that there have been fewer epidemics of smallpox than usual. The only deaths during the current epidemics were one at Southern Ute and four at Shoshoni.

The most serious disease imperiling the Indians is tuberculosis, which, under improper living conditions, has produced a very high mortality. The percentage of Indians infected varies greatly; perhaps the extremes may be represented by the Navajo Springs Reservation, Colo., where in a population of nearly 500 there are no active cases, and the Fort Lapwai Reservation, Idaho, where there is scarcely a family in a population of over 1,400 which has not one or more members affected.

This disease is being attacked in all practicable ways. In addition to the preventive measures which the service is endeavoring to put into effect everywhere, the office is enlarging its four sanatoria; the one at Phoenix, Ariz., will now accommodate 65 patients; the one at Laguna, N. Mex., 25 patients; and the Fort Lapwai Boarding School, Idaho, which is being made entirely into a sanatorium, will

accommodate 120 patients. At Fort Apache, Ariz., and at the Salem school, Oreg., the special hospitals are being continued, but without entire success at the Salem school, because of excessive humidity during the winter. The effectiveness of our sanatoria is apparent on their records, which show that between 10 and 11 per cent of the patients have recovered and that more than 90 per cent have shown marked improvement.

As with tuberculosis, the prevalence of trachoma differs greatly in the tribes. In the Northwest some of the reservations are practically free, whereas in the Southwest at some places 65 to 95 per cent of the Indians are infected.

The two specialists in trachoma employed in the service have visited nearly every point in the Southwest, treating existing cases and giving local physicians full instructions about the peculiarities of the disease and its prevention. These two special physicians have examined and treated more than 6,000 Indians. During the next fiscal year they will devote some of their time to the Northwest, and at the beginning of 1913 they will have so organized the campaign as to be able to inspect the whole field.

At the trachoma hospital at Phoenix, Ariz., in charge of two specialists in diseases of the eye, over 800 cases have been operated upon and treated. This hospital also affords valuable means of instruction to regular physicians from the field who are able to visit it.

The prevailing statement of the superintendents is that in their schools and on the reservations there has been an encouraging improvement in health and that the Indians are building more sanitary houses. Nevertheless, at a few points in the Southwest, as at Fort McDermitt and Walker River, Nev., and Colorado River, Havasupai, and other places in Arizona, where the physical environment is unfavorable, the superintendents report little or no progress. At these superintendencies renewed and persistent efforts will be made to improve conditions.

AGRICULTURE AND STOCK RAISING.

FARMING.

The policy for the economic and social emancipation of the Indians from the protection of the Government requires that they, like other Americans, should found their prosperity and development upon the basic industry of the utilization of land. The Indians' capital is very largely land, and their environment and every natural circumstance make it peculiarly necessary that the great majority of them should become farmers and stock raisers. In parts of the country, especially in the Southwest, some tribes were agricultural when Europeans first penetrated to their villages, and to-day every family

in many of these tribes cultivates at least a garden. Once established intelligently on the soil and independent, the Indians may well develop talents for purely mechanical arts and commerce—but that is a matter for the future.

In the present the office is exerting every means at its command to encourage farming and kindred occupations. The extent to which Indians have received land in severalty is indicated later in this report. At this point reference is made to the agencies the office employed during the year toward its great industrial purpose, and to the signs of ultimate success that became evident.

Two supervisors of farming were appointed and the number of expert farmers—men with experience and scientific knowledge and especially able to give practical instruction—was increased to 48. There were employed in subordinate farming positions 210 men, some of them Indians who have set good examples of industry and efficiency and are able to influence and aid their fellows. On the reservations where Indians have important stock interests, 22 superintendents of live stock and stockmen were employed. Yet for the great task in hand even this force of employees must be augmented.

Especially from Oklahoma northward into the Dakotas there was a partial failure of some crops and a complete failure in others, for the most part from drought. At Sisseton 50 young Indians had farmed for the first time and saw their crops wither and die. In parts of Oklahoma there was but 10 per cent of the usual crop of corn and one-third of the normal crop of cotton. Yet at Kickapoo, Kans., which was within the dry belt, the Indians planted 5,000 acres of corn and 1,000 acres each of wheat and oats; the value of these crops is estimated at \$75,000, although there will be a yield of only one-third of a crop of corn. Even in the affected districts, however, some superintendents report that Indians who had seen their first crops fail show a willingness to make second attempts next year. Generally, there was notable progress throughout the service.

For instance, in the western part of the Yakima Reservation 56 Indians raised 23,000 bushels of grain, a decided improvement over last year, when 45 Indians harvested 19,000 bushels. Seventy Indians successfully raised alfalfa, principally on the eastern part of the reservation. On the Mission Reservations in southern California, 2,500 acres were sowed to hay and grain, an increase of nearly 1,000 acres; 724 acres were planted in garden, an increase of over 100 acres; and the orchards were enlarged. On the Hoopa Valley Reservation in California a plan was put into operation for the Indians to take an active part in the management of their affairs. The reservation was divided into four districts, each of which elects a representative, while the Indians of the entire reservation choose a fifth man as overseer; these five persons meet in council on the first Satur-

day of each month to discuss together subjects of general importance to the reservation, such as the construction and repair of roads, fences, and ditches, and improvements of live stock. The plans formulated are subject to the approval of the superintendent in charge and the whole membership of the reservation is required to take an active part in effecting improvements. The Indians have manifested cooperation and great respect for the rules adopted by this new sort of council.

At the Winnebago Reservation in Nebraska, a number of Indians, formerly in the habit of asking that their land be leased, went to their superintendent and notified him they wished to occupy and farm their allotments for themselves; 38 Indians farmed for the first time; in all, 174 adult Indians worked an average of 64 acres each, or a total of 11,000 acres; the value of crops now standing on these lands is estimated at \$90,000. Forty-four sets of farm buildings were erected; representative sets had house, barn, granary, sheds, well, and pump, and cost about \$1,000. In February, a farmers' institute was held for the benefit of the Indian farmers and the lessees of their lands. The attendance and interest were excellent.

At some reservations, the yield of forage crops was large. At Fort Lapwai, Idaho, the Indians raised 1,200 tons of hay in addition to their 10,000 bushels of wheat, 15,000 bushels of barley, and 20,000 bushels of miscellaneous grains. At the Nevada Reservation, over 1,000 tons of alfalfa were grown on 240 acres, an average of more than 4 tons per acre; the approximate value was \$10,000. But these Indians are not by any means dependent upon forage crops, for practically all of the families have irrigation ditches and raise garden truck. One hundred apple trees in bearing yielded an average of 5 bushels per tree, a total of over 500 boxes, which sold from \$1 to \$1.50 a box. About 40 tons of potatoes were raised and stored for winter use, but the barley crop was less than half the yield of last season, due to scarcity of water.

Eight years ago, in a desert at Martinez, Cal., the Indians farmed no land, but since water has been developed they cultivate 600 to 800 acres. This season they have been very successful; one Indian made over \$1,000 and others from \$300 to \$800. Trying a new crop, these Indians last spring planted 75 acres of cotton. Equal improvement appears at Mescalero, N. Mex.; 10 years ago, an average crop of oats was 1,800 bushels; for this season, the yield is estimated at 15,000 bushels; there will be over 3,000 bushels of potatoes, as well; yet conditions for extensive farming are not especially favorable at Mescalero. At Crow, Mont., the Indians for the first time tried winter wheat, putting in 12,000 acres; although the grain has not yet been threshed, it is certain the yield will be high.

At 22 reservations in all parts of the western country demonstration farms have been established for the purpose of placing before the Indians examples of what they may expect to do with their land. During the year the operation of these farms continued, it is believed, with excellent results.

In activities of this kind State authorities have extended cordial support. The division of demonstration farms of the North Dakota Agricultural College volunteered to cooperate with the officers in charge of reservations in the Dakotas. In Wisconsin a professor of the State University took charge of a large number of experiments. In Oklahoma the expert farmers under the jurisdiction of Union Agency, who were engaged in endeavoring to encourage interest and efficiency among the full-bloods of eastern Oklahoma, had help from the State board of agriculture and from the local representatives of the Department of Agriculture.

STOCK RAISING.

Since the reservations originally contained wide areas of grazing land, and by aptitude Indians are stockmen, the Government has spent much money in developing the stock industry. But many Indians neglected to provide forage for the winter, did not care properly for the increase of their herds, and in a few cases made no attempt to turn their animals to a profit. Even in the face of this general recital of conditions, it is to be remembered that whereas the Blackfeet last winter lost 15 per cent of their herds, their white neighbors lost a larger proportion.

Nowadays the division of Indian lands into small fenced holdings for agriculture impedes the industry, for great cattle ranges in both the Indians' and the white men's country are things of the past. Although the difficulties in fostering this industry must be set down, there have been substantial successes. To-day where the quantity of stock is not increasing it is almost universally reported that the grade is improving.

Holdings in stock are scattered broadcast. At the last dipping the Indians of Pueblo Bonito, N. Mex., had 123,000 sheep and goats. The Indians under the Navajo Agency own well in excess of 500,000 sheep. It is from the wool of these sheep that Navajo blankets in large numbers are made. It is roughly estimated that within 100 miles of the superintendency at Keams Canyon, Ariz., \$400,000 worth of these blankets were sold in the year. At Mescalero, N. Mex., after 5,000 sheep had been given the Indians, but 4,300 remained 10 years ago, although none had been sold. But, after a course of persistent and intelligent encouragement, from the increase of these sheep the Indians yearly send to the markets of Kansas City and Chicago mut-

ton to the value of \$5,000 to \$9,000, and sell \$5,000 or \$6,000 worth of wool in St. Louis and Boston.

At a few reservations the annual operations in cattle are considerable. Last year over \$38,000 were realized at Tongue River, Mont., from the sale of increase of cattle originally supplied by the Government. The Blackfeet in Montana, owning in the neighborhood of 16,000 head, received \$160,000 from sales, or an income from the sale of stock of about \$64 for each man, woman, and child on the reservation.

FAIRS.

Agricultural fairs for the Indians increase in popularity and in educational effect in farming, stock raising, and domestic accomplishments. Wherever they have been held, they have given marked incentive and have been of great assistance in the advancement of the Government's industrial policy. To an important degree, by furnishing an opportunity for a large gathering in the autumn to which the Indians may look forward, they have also helped to counteract the Indians' tendency to abandon their crops in the growing season to hold protracted assemblies. Fourteen reservations had fairs and in the fall of 1911 this number will very much increase.

The expert farmers at the Union Agency used their influence to get Indians of the Five Civilized Tribes interested in the regular county fairs in order that they may not only exhibit their own products but also observe what white farmers accomplish. Farm clubs were organized at Sisseton, Pala, Tongue River, and Rincon, where the Indians council among themselves, study the more simple scientific farming problems, and read farm and stock journals. Farm journals devoted to the interests of Indians are published by Indians at the Cheyenne and Arapaho and the Ponca Reservations in Oklahoma.

It has been customary for the Mission Indians of California, so soon as the grass is sufficient to support their horses and a little money has been accumulated by helping white rangers, to leave their homes and attend fiestas. To reduce the number of fiestas and supplant them with agricultural fairs, a plan has been devised according to which all of the reservations are grouped into three districts of four reservations each. One fiesta or fair will be held annually in the districts in rotation.

EXPERIMENT WORK.

The experiment work in agriculture in conjunction with the Bureau of Plant Industry under the cooperative agreement of 1907 between the Departments of Interior and Agriculture has been going forward at Sacaton, Ariz., with good results. Fifty-five acres of the school farm were used. Experiments show that a good healthy type of

Egyptian cotton can be grown in Arizona, and some of the Indians are attempting its culture on their farms. Eight bales of this cotton, weighing over 3,000 pounds, raised on the experiment farm, were sold at 28 cents a pound.

The cultivation of Bermuda onions as an industry for the Indians in that section offers excellent prospects. A number of Indians sold considerable crops of onions at as high as \$4 a hundredweight, beside raising sufficient for local demand. The Indians have a way of utilizing the whole onion, using the tops as fast as they drop to flavor their food; after the top has dropped the bulb continues to develop.

Experiments are also being made with many varieties of alfalfa, grapes, figs, pomegranates, nuts, date palms, and bamboo. A large number of date palm seedlings are growing and many cuttings of choice varieties were transplanted.

At San Juan, N. Mex., 50 acres of very rough land, purposely selected as not first class, were used for experimental purposes. A greenhouse for propagating was constructed. Experiments were made with many varieties of alfalfa and other forage plants, vegetables, and fruit trees. Seeds and plants which had not heretofore grown in that section were procured from seedmen and many proved of value. Experiments were made with corn in order to determine the variety which would be of the most value. In these experiments, in addition to imported varieties of corn, the best native corn was selected and the colors separated, a necessary step in the southwest where the different varieties of native corn are black, white, pink, red, yellow, blue, and "calico."

In connection with the cooperation of the Departments of the Interior and Agriculture, the Bureau of Soils has made a number of tests of soils from various reservations for the purpose of ascertaining the quantities of chemical ingredients and humus and the physical properties of the soil in respect to the action of water and tillage.

At the request of this service, the Bureau of Animal Industry in the Department of Agriculture examines horses and cattle for disease. In the past year, for example, at 156 schools and reservations it examined over 50,000 for glanders. Also, the tuberculin test was applied to all cattle belonging to school and dairy herds; less than 2 per cent of the animals were found to have tuberculosis. The diseased animals were promptly killed under the direction of the officers who made the inspection.

REIMBURSABLE FUNDS FOR PROMOTING AGRICULTURE.

In 1908 Congress appropriated the sum of \$25,000 as a fund, reimbursable under conditions to be prescribed by the Secretary of the Interior, to aid the Indians at Fort Belknap, Mont., in beginning the

culture of sugar beets and other crops; later the money as repaid was made available for reexpenditure until 1915. Because of the failure of the white farmers in the vicinity of the reservation to respond to a request for suitable acreage, and possibly to some extent because of the failure to get enough Indian land under cultivation, and other complications which surrounded the sugar-beet industry at that time, the raising of sugar beets was abandoned. However, the Indians have made and are making good use of this fund to engage more extensively in agricultural pursuits. No part of the machinery, implements, and stock purchased from the fund became useless through the abandonment of the sugar-beet industry.

One hundred and sixty-four Indians have participated in the use of this fund so far, and the total purchases have aggregated almost \$30,000. Wagons, implements, etc., as needed, are purchased and charged to the Indians to whom they are delivered. This property is carried in the Government accounts until paid for in full by the Indians, when title passes to them. The Indians make payments on their accounts from time to time as they can spare the money. As collected, the funds are taken up in the superintendent's accounts under the item of miscellaneous receipts and covered back into the Treasury at the end of each quarter.

With the consent of the Indians, \$10,000 were set aside from "Indian moneys, proceeds of labor, Blackfeet Reservation, Mont.," and a like sum from "Indian moneys, proceeds of labor, Fort Peck Reservation, Mont.," as reimbursable funds to aid these Indians in agriculture. The money was used last spring to purchase implements, seed, and other articles incident to farming operations. At the request of the Indians a traction plow was purchased for each reservation for the purpose of breaking up their new lands, as their horses are small, and after wintering upon the open range are generally too weak to do heavy work. The Indians of the Blackfeet reservation have asked that an additional sum of \$30,000 be set aside from their money to be used as a reimbursable fund. In 1910 the sum of \$15,000 was appropriated to be used similarly at the Tongue River Reservation in Montana. No expenditures were made from this appropriation until last spring. The superintendent was then authorized to expend \$14,500, almost the entire sum, in the purchase of implements, seeds, and stock.

Thirty thousand dollars, to be repaid before 1918, were appropriated in 1911. The use of this money is not confined to any particular reservation. As the sum would be entirely inadequate for practical or effective application widely throughout the service, it is planned to ascertain where the greatest needs exist in order that it may be placed in the hands of the most worthy Indians.

RATIONS.

The number of Indians drawing rations has been reduced at a number of reservations, and it is estimated that less than 21,000 are now receiving this aid. In the purchase of rations there was a decrease of \$10,000. A great many Indians carried on the ration roll are given supplies only occasionally. Constant effort is made to reduce the number of ration Indians as rapidly as may be without causing distress and destitution; as a matter of course, the number lessens as the number of working and self-supporting Indians increases.

EMPLOYMENT OF INDIANS.

The report of the supervisor, whose chief business it is to assist Indians in securing employment away from reservations and on the same conditions as white persons, shows continued good results. In the district comprising Arizona and New Mexico, the total earnings of 9,000 Indians placed out or looked after by an assistant supervisor exceeded \$260,000; of this amount, \$16,000 were earned by outing pupils. Among these industrious Indians were members of the Apache, Yuma, Pima, Papago, Navajo, and other tribes. Wages ranged from \$15 a month to \$5.50 a day, averaging about \$1.75 a day.

In May, a contract was made between the supervisor of Indian employment and the Atchison, Topeka, & Santa Fe Railway coast line covering Indian employment on that system. Indians working under this contract are in what is known as extra gangs composed of 75 to 125 men. The company furnishes bunk cars for the men at the rate of one car to each 10 to 14 men, together with necessary cars for the operation of a commissary and mess. The rate of pay guaranteed the Indians is the best the Santa Fe has ever paid for this class of work to any laborers, and in view of the fact that they get free transportation both ways and can purchase necessary articles of clothing and subsistence practically at cost they have a good opportunity for remunerative employment. The first extra gang started early in June and a second in the latter part of June; there are now considerably more than 200 men at work. The Indians in these gangs are Mohaves, Pimas, Papagoes, Apaches, Navajos, and Pueblos. Their work is ballasting on the double tracking, and they have been given the section through the mountains between Flagstaff and Williams for the summer, and have a very desirable place to work at such a time of year. In these extra gangs Indians exclusively are employed.

During the past season between three and four hundred Indians worked in the bean fields in the vicinity of Upper Lake, Cal. They received an average wage of 15 cents per hour or about \$1.50 a day.

Young and able-bodied and old and infirm secured these wages and each Indian made approximately \$50. Some families with grown children earned \$100 or more; one family earned \$450 for the season's work. After the bean-picking season was over, the Indians, as a rule, went to other ranches and picked hops and prunes.

Reports from places where Indians are employed show that their services have been very satisfactory. It would seem that when an Indian decides to work he works well and renders full value for his wage.

IRRIGATION.

For successful cultivation of the lands on which most of the Indians live in the West and Southwest irrigation is a prerequisite. In the year 1910 I reported that over \$5,000,000 had already been spent to bring a little more than 300,000 acres of Indian lands under ditch. For the year 1911 Congress appropriated slightly in excess of \$1,300,000, all but \$259,000 of which was made reimbursable to the Treasury when the irrigated lands are in successful cultivation and the Indians have become self-supporting.

In keeping with our determination to give the Indians every opportunity to become industrious, at least \$145,000 of the year's expenditures by this office were paid to Indians for labor. Furthermore, the Reclamation Service, on the four projects it is constructing for the Indian Service, paid out \$169,000 for Indian labor. On the other hand, only \$17,000, or a little more than 2 per cent, of the expenditures of the office were used for purposes of administration; this sum included the expense of inspecting the important works.

Important construction was carried on at Uintah Reservation, Utah, where canals and laterals were completed for the delivery of water upon 2,000 additional acres; at Wind River, Wyo., where the Ray and Collidge ditch systems were extended; and near Shiprock, N. Mex., on the San Juan project, where during the year water was delivered to 600 additional acres actually farmed by Indians. At Crow Reservation, in Montana, over \$63,000 of tribal funds were spent, of which almost a third was charged to maintenance; at this reservation the item of maintenance was abnormally heavy because worn out structures erected 12 and 15 years ago had to be replaced. The concrete structures, reinforced concrete syphons, and steel flumes, which are now being installed in the service, will, in the future, considerably reduce present high charges for replacement on the few projects that have not been recently constructed.

At Fort Hall, Idaho, also, much important work was accomplished; the hydraulic earth fill and loose rock dam on the upper Blackfoot River was almost completed, and among the concrete structures erected was a reinforced siphon 4,500 feet long. For the

allotted Southern Utes in Colorado the Ute Creek ditch was substantially completed, and the Old Spring Creek extensions were enlarged; and among 10 of the reservations of the Mission Indians in California \$36,000 were spent in improving means of supplying water.

In addition to the irrigation works which the office directly conducts, the Reclamation Service, under a cooperative agreement, has in charge four extensive and important projects for Indians. At Gila River, in Arizona, where water for irrigation is being developed by pumping from an underground reservoir, canals have been excavated, concrete structures built, caissons placed at the wells, and 5 pumping stations built and their machinery installed, making in all 10 completed pumping stations. These pumping plants have been able to supply the water required to augment the flood waters of the river for the irrigation of all crops on the north side of the river over an area of about 4,500 acres. At least the main canals are now built above 10,000 acres.

The Reclamation Service continued construction work upon the Two Medicine unit and the Badger-Fisher feeder canal, on the Blackfeet Reservation, in Montana, and has completed 46 miles of canals and laterals. As yet it has delivered no water for irrigation for the reason that active allotting has been in progress and no lands have actually been prepared for irrigation.

Construction has been under way on the Jocko, Pablo, Post, and Polson divisions at Flathead, Mont., and canals have been built to cover 19,000 acres, of which 2,800 acres were actually irrigated.

On the project at Fort Peck there has been construction during the year only on the Poplar River unit. In all, 7,500 acres were placed under ditch, but as yet none of this land is being irrigated.

For these four projects the auditor during the year settled claims in favor of the Reclamation Service aggregating \$607,000.

There fell to our service much repair work. In January, 1910, the agency and school buildings and the entire irrigation system of the Supai Indians in Arizona were destroyed by a flood which swept down the Havasupai Canyon. Although the estimates for reconstruction of the irrigation system were \$2,500, the work was actually done for \$1,271, all but \$80 of which went to the Indians in payment for their labor. At Moencopi Wash, at Tuba, Ariz., it was necessary to repair the loose-rock dam. Repairs were made, too, at Zuni, N. Mex., a reservation at which the Indians have made remarkable progress in the short time they have had water. They have 1,500 acres fenced and 1,000 acres in actual cultivation. At Fort Hall, Idaho, on January 24, there was the most serious flood on record in that country. The upper canal was damaged in its whole length, and several structures were washed out. Sufficient repairs were

made to permit the delivery of water at the opening of the irrigating season. For complete restoration of the system the cost will be about \$15,000.

At Yakima, Wash., where on part of the reservation the usual conditions in Indian country are reversed and it is necessary to reclaim wet lands, the work of draining 30,000 acres of swamped land was actively prosecuted. A dipper dredge and two drag-line scrapers excavated a total of over 800,000 cubic yards at an average cost of 9 cents a cubic yard. This is a very low cost for excavation in wet gravel. In all 21 miles of drains were dug, freeing from water a large area, some of which is already being cultivated.

At many points in the service the office has made surveys and explorations, which will be the basis of future developments. For example, the proposed plan for pumping water at the Colorado River Reservation in Arizona has progressed to the point where bids have been received and opened. At the Fort Mohave Reservation surveys have been made for a levee to protect lands against overflow from the Colorado River. In the Tenino Valley, in Oregon, on the Warm Springs Reservation, surveys proved that the cost would be prohibitive for reclaiming the 1,500 acres it had been thought might be made available.

Reports from superintendents in all parts of the field show a general alertness concerning the Indians' water rights. Proper steps are being taken to establish permanently rights which might be called into question. For example, statements have been prepared regarding water claims for all pueblos in New Mexico and filed with the Territorial engineer. It is worth noticing that the Pueblo Indians under the Albuquerque school utilize water for 8,000 acres and have 95 miles of ditches which they have built themselves. In our efforts to vest adequate water rights in the Indians the State authorities frequently cooperate, as in Wyoming at the Wind River Reservation, where the State has extended the time for final proof to 1915 and 1916 because of the large amount of ditch construction necessary in the project, and at Uintah, Utah, where the legislature provided for an extension of time to 1919.

FORESTRY.

The resources in timber, particularly upon some of the reservations in the Southwest and from Wisconsin westward to the coast, are a great material asset of the tribes. Revised estimates place the stand at 34,000,000,000 feet, with an approximate value of \$76,000,000. The forests also afford a considerable means of employment and industrial training. At a few reservations the Indians are fully alive to the value of timber lands and guard them zealously, as at Mescalero, in

New Mexico, where the Apaches conserved a magnificent forest while lands on all sides were being devastated.

Careful studies of timber resources are being made by forest experts to determine the methods of forest conservation best suited to each reservation, and more particularly to secure that knowledge of the stand by species and quantities, topographical conditions, transportation possibilities and market conditions necessary to an intelligent handling of timber sales; and wherever large sales are in progress or in contemplation, trained forest assistants are being placed. In short, every effort consistent with the funds available is being put forth to secure economical utilization of the forests in the sole interest of the Indian owners.

The forest work is rapidly becoming self-supporting. An important decision of the Comptroller of the Treasury, of September 15, 1910, makes it possible for the Secretary of the Interior, in proper cases, to meet the cost of supplies or pay the salaries of employees from the proceeds of timber cut on tribal lands. In time it may be expected that where there are important tribal forests, the annual income from forest products will go far toward meeting all expenses of the reservations. By adopting uniform contracts, permits and other blanks, by issuing more than 100 specially prepared pocket maps for use in the field, and particularly by putting out a set of general regulations and instructions for field officers, the office has done much during the year toward simplifying questions of administration. In the field, the construction of roads, trails, and telephone lines has been pushed, especially by the work of the forest guards; for ready communication gives the surest means of protection against the great peril of fire. In protecting forests, 125 forest guards—Indians wherever practicable—have been employed, assisted by the regular Indian police, and farmers and other reservation employees whenever necessary. Every possible effort is being made to follow the example set at Mescalero, where the Indians have been trained by the superintendent into an effective protective force.

During the present season there has been little damage from forest fires. But the extensive fires of the summer of 1910 entailed heavy expenditures. To utilize the timber in burned areas, during the coming winter 11,000,000 feet will be cut by the authorized contractor at Bad River, Wis., and 7,500,000 feet at Red Lake in Minnesota, will be placed on the market. Wherever there are bodies of dead and down timber and of overmature timber, efforts are being made to secure disposal at public sale; but unless advantageous prices can be obtained and the interests of the Indians in every way safeguarded, sales are not completed; where other disposal is not clearly more profitable, the Indians themselves are encouraged to log the smaller bodies of their timber.

No considerable sales of timber were made during the year. Large amounts were offered on the Flathead Reservation, the Jicarilla Reservation, and in the Choctaw Nation, but did not bring satisfactory bids. To supply local demands small sales were made at many points, and the lumbering operations in progress for some years in the lake States were continued.

The two most extensive logging operations continued through contractors were at Bad River, Wis., and upon the ceded Chippewa pine lands in Minnesota. At Bad River 84,000,000 feet were cut, yielding \$503,000. Upon the ceded Chippewa lands over 80,000,000 feet were cut, yielding \$578,000.

The Neopit project on Menominee Reservation in Wisconsin has a status of its own in that the Government in 1908 built a large lumber mill, using funds of the tribe; thus the Menominee Indians have become the owners of a large modern mill equipped with two band saws and a band resaw and capable of daily putting out 150,000 feet of lumber. A modern planing mill, too, has been erected. The Neopit project was established with a twofold object—as a school of industry for the Indians and as a business investment to earn profits for the tribal funds.

As an aid in reducing the lumbering cost between stump and mill, 10 miles of logging railroad with spurs were constructed and equipped with 50 cars and a powerful Lima locomotive.

Mature timber is cut—pine, hemlock, and hard woods—under approved methods of forestry which insure reproduction; the average amount of timber cut each year does not exceed the estimated annual growth of the whole forest. The mills manufacture lumber which both for grade and finish has an unexcelled reputation with the trade and commands the highest prices. At competitive sales the lumber, lath, and shingles produced are sold for cash to the highest and best bidders.

During the year 31,000,000 feet of timber were logged and 27,500,000 feet of lumber were manufactured; almost 22,000,000 feet of lumber, 3,000,000 lath, and 2,500,000 shingles were sold; furthermore, 1,000,000 feet of lumber were used in construction; at the close of the year there was on hand a stock of finished products almost equal to the shipments made in the year. The total receipts from all products was \$424,000, showing a profit of \$11,200, the first net profit since the inception of the operation.

As a school of industry for the Indians, the project is succeeding. Two hundred and five Menominees were employed on the operation each quarter of the year, being in excess of 38 per cent of the male members of the tribe over 18 years of age; and on the average there were 56 members of other tribes, or in all 261 Indians; they earned \$67,000. The superintendent reports that his force of employees,

many of them necessarily green hands at the beginning, is becoming a very efficient organization.

Neopit is a small lumbering town. An electric power plant furnishes the town and mill with light. In organizing all the services of a modern town the superintendent has taken the initiative; for instance, he reports that he has five trained fire crews ready to respond at any moment, and by actual test they can have water on a fire in three minutes after an alarm. For the Indians buildings are being constructed with proper regard to light, air, and health.

INDIVIDUAL INDIAN MONEYS.

At the beginning of the year there were on hand \$9,500,000 of money to the credit of individual Indians. These funds were derived from sales of land, agricultural and grazing leases of allotments, royalties from oil and gas wells, sales of timber, earnings of outing pupils, and similar sources. Through supervision the expenditure of these moneys is now made one of the most effective means of developing independence and self-support. For instance, if an Indian is able to work he is allowed to draw from money to his credit only for purposes that increase the efficiency of himself and his family. Consequently, a liberal supervision of expenditures has not only increased the Indians' capital in property, but has conserved the funds of many Indians who otherwise, through infirmity or age, would have become dependent on the Government for support.

The success of this policy of liberal supervision has been especially apparent during the fiscal year. Superintendents' requests for authority to approve checks disclose Indians occupying modern houses and eager to improve them, profitably farming as extensive acreage as their progressive white neighbors, and supplying themselves with heavy horses and good grades of cattle.

At times in the past individual moneys have been sources of positive harm; for traders, encouraging the possessors of funds to extravagant and useless purchases, have inculcated spendthrift habits in direct antagonism to the purposes of the Government. The department has now taken very decisive steps to prevent further demoralization from this source. On December 17, 1909, departmental orders called attention to the regulation which requires all persons dealing with Indians to extend credit entirely at their own risk, and to the earlier announcement by this office that no credit accounts incurred after July 1, 1909, would be settled from funds in the custody of the Indian Office unless prior authority for the purchases had been granted through the superintendent. To-day traders who extend credit receive their money, if at all, from the hands of the Indians themselves.

As an essential step in this policy, the office last February called upon the superintendents to collect and transmit every claim against Indians for whose funds the office might in any measure be held responsible. The office has now received, examined, and classified over 180,000 claims, aggregating \$1,695,000. It is found that there are about 2,500 creditors and 33,000 Indian debtors, the total indebtedness of each debtor averaging about \$52. After a thorough inquiry into the merits of the claims against each Indian, the claims that deserve recognition will be stated on the record of this office as just, and where the debtor's funds permit, the office will do everything in its power to see that the Indians pay their just debts.

As an example of the beneficial use of individual money, records show that between January 1 and June 30, 1911, expenditures were approved for Ponca Reservation, Okla., to the amount of \$43,000. About \$10,000 of this sum was spent for houses and barns and their repairs, \$14,000 for good grades of work horses, and \$9,000 for wagons, buggies, implements, and harness. During the same period the total expenditure approved for Standing Rock, N. Dak., was about \$89,000, of which \$32,000 were to go for houses, barns, and repairs, \$12,000 for horses, and \$8,000 for implements and minor improvements like fences and windmills. It is very obvious that a wise use of individual moneys quickens industrial development of the Indians.

PATENTS IN FEE AND ALLOTMENTS.

There is ordinarily so little legitimate reason for Indians alienating their lands, and the disposal of their farms so effectually thwarts the policy of the Government in developing self-support, that I am opposed to granting patents in fee unless circumstances clearly show that a title in fee will be of undoubted advantage to the applicant. A substantial class under this exception to the general rule is comprised, of course, of those who are making a living in other industries, or are honestly trying to do so. Not all Indians can or should become farmers; it is, however, the best chance of the majority. It is noticeable that industrious Indians who actually cultivate their lands seldom apply for patents in fee. Consequently, as the great majority of applicants belong to the class which inclines most toward shiftlessness, it is not surprising to find that in the past the greater number of successful applicants have made such haste to sell their land that they have got considerably less money than they would have received from sales through the superintendents. In a period of idleness they have squandered the entire proceeds, and in a short time have had neither land nor a substitute for any part of it, but in fact have been morally and industrially the worse for ever possessing land. In the face of existing evidences of carelessness and incompetence any

liberal policy of giving patents in fee would be utterly at cross-purposes with the other efforts of the Government to encourage industry, thrift, and independence.

As an incident a patentee in fee becomes a citizen. By operation of the Dawes Act of February 8, 1887 (24 Stat. L., 388), Indians who received trust patents became citizens; in this way 65,000 Indians attained citizenship before the act was amended by the act of May 8, 1906. Under the act of 1906, by which citizenship accompanies only a patent in fee, at least 400 Indians have become citizens. As all members of the Five Civilized Tribes were made citizens by the Congress, the whole number of citizen Indians is now over 166,000. As yet the possession of citizenship is a potential asset only to most of these Indians; few of them vote or take other part in the affairs of their communities. Nevertheless, their citizenship and taxation, so far as they have taxable property, have enabled the office to take a stand for the admission of their children into public schools, and ultimately will undoubtedly bring nearer the time when the Indians may become in fact citizens of the various States.

As a very necessary part of the policy of getting each Indian family upon land of its own, and into the process of making a civilized home for itself, the work of allotment has been vigorously pushed in parts of the Indian country where Indians remain without individual land holdings. The year's work has resulted in allotting approximately 2,000,000 acres of land to over 13,000 Indians. With varying climatic and soil conditions, the allotments have varied from 320 acres of grazing with 40 acres of irrigable land and several acres of timber, at Fort Peck, Mont., to the very small tracts at Pala, Cal., where it was possible to give each Indian but 1.80 acres of irrigable land and 6 acres of dry grain land. In spite of the small area of the tracts at Pala, the climate is so favorable and the soil is so productive, that the Indians will find their little farms sufficient to meet their needs.

At Quinaielt, Wash., conditions make it questionable if the Indians will ever become successful farmers. For many generations they have been expert fishermen, and still earn \$20,000 to \$30,000 annually from their catch of salmon. Nevertheless, in view of the probable decline in the fisheries, it is wise to do what is possible in turning these Indians toward agriculture. To date, 690 Indians have been allotted almost 65,000 acres. As another resource the reservation has very valuable timber which will be administered for the benefit of the tribe.

I wish to call attention to the success a special agent has had in making allotments to Papagoes on the public domain in Pima and Pinal Counties, Ariz. He has filed applications in the local land offices on behalf of 885 Indians for a total of 141,000 acres, and will

be engaged for some time in continuing this work, as there are between 3,000 and 4,000 of these Indians.

In some parts of the field difficulties have temporarily prevented the completion of allotment. After many Hopi Indians had been tentatively allotted in Arizona, it was found best to suspend operations until definite information can be secured concerning resources in water; for without adequate supplies of water the Indians could scarcely gain a livelihood on their lands.

In order to ascertain the resources in underground water for Hopi and also on the Navajo Reservation, where allotments were suspended for the further reason that the General Land Office had not yet made original surveys, the office has had an expert from the Geological Survey make studies, and he has been followed by a well-drilling outfit which has developed five good wells near Hopi Mesa and Keams Canyon, Ariz. These wells are $3\frac{1}{2}$ inches in diameter. They will be equipped with windmills and pumps, stone tanks for the storage of water, and troughs for watering cattle and sheep. This development of underground water in desert regions has been so successful that two more drilling outfits were purchased in June. The cost of these operations for the year was \$9,000.

At Blackfeet, Mont., after allotment had proceeded to a considerable extent, it was ascertained that the Indians were not selecting lands which would be benefited by the irrigation projects under construction for them by the Government. The allotting agent was immediately instructed to remedy this condition of affairs and he reports that he has succeeded and expects complete adjustment in accordance with recent selections by October 1, 1911. The superintendent of the reservation writes that the Indians have now so selected their allotments that they will command almost all sources of water on the reservation. For the 2,500 Indians on this reservation nearly 900,000 acres will be required.

In connection with allotments many incidental problems involving other parts of the service have to be met. For instance, at Bad River, Wis., a number of Indians have not received land; it happens, however, that vacant tribal lands are very unevenly timbered; some quarter sections have stands of very valuable timber, whereas others are bare. Under these conditions, that allotment may be equitable, it is now hoped that legislation can be procured by which the timber can be cut and the proceeds divided pro rata, and the land allotted for purely agricultural purposes.

The statistical data on file at this office show that roughly two-thirds of the Indians have been allotted. When allotment at a reservation has been completed, special statutes have usually provided for opening the surplus lands to settlement. In this way throughout many districts white farmers are now interspersed among the In-

dians to the Indians' advantage, for even crude and imperfect examples of industry and thrift invariably have had their influence; and, in truth, the great majority of the settlers who have become neighbors to the Indians are capable of setting high standards in husbandry and perseverance. The completion of allotments incidentally furnishes a tribal fund from the net proceeds of the sale of surplus lands.

SALES OF LAND.

The great policy of changing the Indian's native view, of bringing each allotted Indian to look upon some piece of land as peculiarly his individual property, and to make it a means of self-support does not require that in all cases all the land should be inalienable during the period covered by the Government's trust patent. As it is no part of the Government's policy that an Indian should have more land than he can utilize, Congress in 1902 provided that the heirs of deceased allottees might sell and convey the land they inherited, subject to the approval of the Secretary of the Interior. Under this act many Indians have sold their inherited lands and used the proceeds to improve the allotments on which they live. In 1906 further legislation was passed requiring the Secretary of the Interior to ascertain the legal heirs of Indians who died after being allotted subsequently to the act, and either to cause to be issued to the heirs a patent in fee or to have the land sold and a patent issued to the purchaser.

In 1906 Congress also provided a way for original allottees to sell their land, by vesting the Secretary of the Interior with power to cause a patent in fee to be issued to any allottee of whose competency to manage his affairs the Secretary was satisfied. In 1907 the Congress went further, in the "Noncompetent act," permitting the allottees to sell their lands if they had the approval of the Secretary of the Interior. Thus, Indians possessing no inherited lands have been able to sell part of their allotments to obtain money for the improvement of their remaining lands.

Under the provisions of the statutes just mentioned and under special acts affecting only limited districts, administrative action in this office for the fiscal year affected 340,000 acres, of which the lands covered by approvals for sale, aggregating 150,000 acres, were disposed of for a total of almost \$2,500,000, or an average of \$16 per acre.

Another method for alienating allotments was authorized by the Congress in 1910; the statute allows an Indian to devise his trust land if he is over 21 years of age and the Commissioner of Indian Affairs and the Secretary of the Interior have approved the will. After a

year of operation it appears that the act should be amended, for at present in the frequent cases where the devisees are minors or otherwise incompetent they may alienate the land at will. With a view to retaining in trust the land devised in such cases, an amendment to the present law has been submitted to the Congress; by the proposed legislation the devisee, if competent, will be able to get a patent in fee under the act of May 8, 1906. Under the act of 1910 in its present form 26 wills were approved during the year.

This act of June 25, 1910 (36 Stat. L., 855), is mandatory in requiring that after a hearing pursuant to notice the Secretary of the Interior shall determine the heirs of deceased allottees and, in case they are competent, shall issue patents in fee. This act entails a vast amount of work; many allotments are now of 20 years' standing; estates are contested; and the questions of law, and particularly of fact, become extremely difficult, largely through difficulty in obtaining Indian testimony of value. As allotments have been made on 55 reservations, and upon the Winnebago Reservation alone—one of the smaller reservations—there are 600 heirship cases, the work to be done under this act will become one of the greater tasks of the office. During the year it has been possible to determine the heirs in approximately 800 cases.

In conducting sales of Indian land the office has inaugurated a plan which results in saving from two to four months in the completion of each sale. Immediately after the department approves a sale and without delay through waiting for a patent to issue from the General Land Office, the superintendent is authorized to put the purchaser into possession of the land, and at the same time the purchaser is required to deposit the purchase price to the credit of the Indian. Because of this change in routine there has been freer competition for lands, with corresponding higher prices.

LEASES OF LAND.

The leasing of Indian allotted lands raises some of the gravest questions of policy with which the Indian Office has to deal. Under certain conditions leasing is of real use to the Indians. Where an Indian is farming a substantial amount of his allotment and has not capital or hands enough in his family to farm more, it may be advisable for him to lease the surplus, provided his character has reached a stage where the coming in of a steady rental will not cause him to lessen his labors. The chief question in a case like this lies between leasing and sale. If he can get a good price, it is frequently better for him to sell and have the capital value of his surplus land to put into substantial improvements on his retained farm. The market, however, may not be good at the time, or he may also desire

later on to farm this surplus himself, and lease it only as a temporary measure.

One very important factor has to be kept in mind with regard to all leased land, and that is, that although wild land may safely remain idle without injuring, through spreading of weeds, neighboring land under cultivation, land once broken up must for the sake of the good of the community at large be kept constantly under cultivation, so that land once leased and cultivated must either be kept under lease, farmed by the owner, or sold to some one who will cultivate it.

Another instance where leasing is frequently desirable is where an Indian has adopted some other industrial pursuit than farming. He may be keeping a store or following a trade, or even working out as an unskilled or skilled laborer. In such cases it may be better for him to lease. He may well look forward to the day when he will wish to become a farmer, or he may be making a good home for himself at his trade at some distance from his allotment, and prefer to lease for a time, applying his rents to the improvement of his home, with a view of selling ultimately. Whether in such a case he should lease or should sell all of his land would depend on the circumstances in each particular case. For some Indians it is undoubtedly wise to burn all bridges, completely sever connection with the reservation, and turn their holding there into money; with others, it is better to do this as to part, but keep at least a homestead as a reserve to fall back upon in case they do not succeed outside, or prefer to change.

There is a third class of cases, such as the sick or otherwise incapacitated Indians, who can not farm. For these it may be preferable to lease rather than to sell.

On the other hand, leasing as it has been practiced is, as a general rule, a positive detriment to the Indians. Until an Indian is well started at farming or a trade, a steady rental from his land is one of the strongest incentives not to begin to work. It is too frequently the case that an Indian lives in a frame house, built from the proceeds of the rental of most of his lands, in idleness and economic stagnation. He is there assured of a roof over his head and of sufficient food and clothing, and I think it is safe to say that there would be too many white men who would see little incentive to work under such conditions. In fact, to work when necessity does not drive is one of the few real tests of a very high state of civilization.

In its efforts to train the Indians to transact their own business affairs, the office has been trying the experiment of allowing Indians to do their own leasing where they were, after careful study, considered competent for that. I feel that this is very likely a wise course where, under the general lines I have indicated above, it is right for an Indian to lease at all; but, even so, I think we have probably somewhat overestimated its importance, for the amount of real

business training that an Indian gets in leasing his land once in three or five years is comparatively small. In the past year over 2,200 Indians at 18 reservations were extended the privilege of making their own leases.

For other lands of Indians the Government approves leases, subleases, assignments, and the like, and has a large volume of such work in connection with oil and gas lands in Oklahoma. Oil and gas have recently been discovered on restricted allotted lands in the Ponca Reservation, and leases for 5,000 acres have been approved. On the Shoshone Reservation, too, oil and asphalt have been found. In neither section, however, does present development indicate whether the industry will be profitable.

The amount of oil produced on the Osage Reservation almost doubled, and the royalties paid to the tribe increased in even greater proportion, as the price of oil advanced. A large number of wells produced a natural flow of several thousand barrels a day. In the Five Civilized Tribes there was a decrease in the number of oil and gas leases on restricted lands, but agricultural leases more than doubled.

Under amended regulations oil leases in the Five Civilized Tribes may now be taken for 10 years, and as much longer as oil and gas are found in paying quantities; in the ordinary case the royalty for each gas-producing well has been fixed at \$300 per year in advance, and the lessee must assume an alternative covenant either to drill a well within a year or pay a rental of \$1 an acre.

In recommending the approval of railroad rights of way across Indian lands allowed by acts of the Congress the office tries to keep in view both the immediate rights of the Indians and the future development of the resources of their country. In connection with the rights of way of the Chicago, Milwaukee & Puget Sound Railway, schedules of damages aggregating approximately \$15,000 were approved for land at Cheyenne River, S. Dak., and Standing Rock, N. Dak. At Pyramid Lake, Nev., the Central Pacific Railway secured a right of way extending fifty some miles. For small station grounds and rights of ways of a few miles each at reservations in all parts of the Indian country numerous applications were approved.

SCHOOLS.

The utilization of the lands given the Indians and the whole industrial development of the race depends in large measure upon the education of the children. For this service the Government maintains a special system of schools; during the year there were 223 day schools corresponding to an improved form of rural schools in white communities, 79 boarding schools on the reservations to which children of scattered families are taken, and 35 boarding schools at

places away from reservations. The total enrollment for the year reached almost 24,500.

The number of children in public schools, both under contract and as entitled to the facilities of public schools, more than doubled, increasing to 6,900 in the Five Civilized Tribes in Oklahoma, and elsewhere to 4,400; thus, there were more than 11,000 Indian children in the public schools of the country. As conditions in Indian homes improve, the present opposition upon the part of white people in many quarters to the presence of Indian children in their schools will grow less, and consequently a steady increase in enrollment may be expected. That the children may at the proper time be ready to go from our schools to the common schools, the State courses of study have been adopted, and as part of the effort to assimilate Indian schools to public schools our teachers have been encouraged to participate in State educational affairs.

In mission schools there have been 4,300 Indian pupils. Thus the whole number of Indian children in schools of every character was slightly in excess of 39,800, or about 2,000 more than in the last fiscal year.

Insistence upon every eligible child being in school was one part of a large program for enhancing educational efficiency. The whole field was divided into districts, each under a supervisor who is a practical educator and a man of experience in the Indian schools. The perfection of a system of enrollment and transfer completed the downfall of the discredited practice of instructors from detached boarding schools visiting reservations to solicit and collect students.

To make way for those children whose needs peculiarly justify our system of separate schools, all children are being eliminated who lack an appreciable quantity of Indian blood, or who have access to public schools at their homes. A large number of ineligible students has been found in nonreservation schools; through the elimination of these students many thousand dollars will become available for educating Indian children who stand in real need of every assistance the Government can extend. The meaning of the proper application of these funds can be appreciated if it is remembered that there are still at least 9,000 indigent Indian children without educational opportunities.

Since the whole policy of the Government concerning the Indian race may be described as an attempt to make it function industrially in the civilization with which it is now surrounded, added emphasis has been placed upon proper industrial education; in particular, outlines for simple courses have been issued which will enable teachers in the schools to instruct every boy in the rudiments of agriculture and the use of ordinary implements and tools, and to give every girl some knowledge of how to make and manage a home.

To attain another phase of the same purpose, a special supervisor has been assigned to set up "school cities" in the larger schools. By organizing the children in the more characteristic activities of representative government, and by giving them a degree of self-government, this plan brings to each child some sense of public duties and of the form and purposes of the Government of which at some day all Indians will become active citizens. For years a "commonwealth" of this sort has been conducted with striking success in the Indian school at Tulalip, Wash.; the plan has there created such respect for property that it is said there is not a marked book or a defaced building or piece of furniture at the school.

For various administrative reasons 6 boarding schools and 17 day schools were closed. The governor of Utah formally accepted for his State the schoolhouse and grounds at Ouray school according to the offer made by the Congress, and the governor of Colorado similarly accepted the buildings and fixtures of the Fort Lewis school and of the Grand Junction school. Each of these schools is to be maintained by the State as an institution of learning to which Indian students will be admitted free of tuition and on an equality with white students.

Originally the school buildings and grounds of the Five Civilized Tribes of Oklahoma were controlled by the tribes, who entered into contracts with private persons to conduct the instruction. Through a gradual change from this situation the Government has for some years had complete charge, and the latest reorganization, effected last year under a special supervisor with headquarters at Muskogee, proved most successful. Great efforts are being made to have the buildings sound and healthful and to give instruction that will prepare the children for useful and industrious lives upon their farms or at other work.

In Oklahoma three school superintendents were employed for the double purpose of establishing day schools and of encouraging attendance of Indians at public schools. Tuition was paid for about 3,700 Indian pupils in the public schools of Oklahoma at the rate of 12½ cents a day of actual attendance. Very fortunately for the plan of placing all possible Indians in public schools, the supervisor reports that in very few localities is there race prejudice against the co-education of whites and Indians; the Oklahoma constitution gives the Indian an equal status with the whites in educational privileges.

EMPLOYEES.

In round numbers 6,000 persons were employed in the Field Service, about 30 per cent of whom were Indians. A little less than one-half of the total force was directly connected with school work; the remainder dealt more particularly with adult Indians in connection with their lands, industries, and homes.

The number of changes that occurred among employees, amounting to over 9,000, undoubtedly had its effect upon the efficiency of the service. By the 9,000 changes but one-half the same number of positions were affected, and it is true that the majority were posts of minor importance; but in at least 1,000 positions where local experience and continuity of service are of positive value new incumbents had to become adjusted. Of 3,700 appointments 600 were through certification by the Civil Service Commission after competitive examination, and 1,900 were persons excepted from examination either because the annual salaries did not exceed \$300 or because appointees were Indians. In fact, these appointments included 700 Indian policemen, 150 Indian judges, and 100 Indian interpreters. Furthermore, there were 450 laborers and kindred unclassified employees. The other appointees were temporary. Under the rules of the Civil Service Commission wives of regular employees are given noncompetitive examinations for minor positions at their husbands' places of employment, and all Indians are entitled to similar examination for positions throughout the service. After such noncompetitive examination there were 39 appointments, 14 of the appointees being Indians. Of 3,700 separations from the service about 2,000 were resignations and 467 were dismissals; all but 19 of the dismissals were either from minor positions that are excepted from civil-service examination or from unclassified positions. The other 1,233 persons who were separated from the service occupied temporary positions which were subsequently filled with regular employees.

It will be observed that 7,400 changes in personnel have been accounted for. The remaining 1,600 changes were promotions, reductions, and transfers within the service.

The office receives many declinations from persons certified by the civil service from schedules of eligibles; only 53 per cent of the persons certified and tendered positions indicated willingness to accept. Until the office can promise more adequate compensation for the services required of employees there will be little relief from the difficulties which accompany the present large number of transfers, resignations, and declinations of appointment. An ideal in personnel can be approached only if there is competition for the lower grades of positions in which employees may be tested and prepared for promotion to places of broad responsibility.

Promotions are based upon merit as disclosed by achievement. A detailed record is kept of the efficiency of every employee in the field. In 1911, 16 superintendents were promoted to the management of larger schools, because they had demonstrated ability to deal with problems of increased importance; 19 superintendencies were filled by promotion from lower ranks, such as principal, assistant superintendent, and chief clerk; and three superintendencies were filled with

men transferred from other services of the Government where they had shown marked ability.

While the Civil Service Commission has cooperated heartily with the office, it has been unable to furnish a sufficient number of eligibles for the lower grades of positions, such as cooks, matrons, carpenters, and blacksmiths. In course of time this condition will be remedied, as Indians in greater numbers are entering these minor positions, in which they render very good service. Indians are also rising through the grades, several of them having reached the position of superintendents of reservations. They are doing excellent work.

CONSTRUCTION AND REPAIRS.

As the annual deterioration of the buildings used in the field ranges from 1 per cent in the most durable materials to 20 per cent on the most perishable building materials in unfavorable climates, the item of repairs alone is large. The approximate value of school and agency plants is \$8,500,000. At the same time there is constant need for new construction. The funds available for new buildings and repairs approximated \$700,000.

Wherever work was within reasonable distance of building and trade centers, efforts were made to interest local contractors. At every place where this has been tried local builders underbid others from 10 to 25 per cent. The office is often confronted, however, with the necessity of erecting buildings at remote places where only contractors with large capital can operate.

Because of the magnitude of our building operations, and the size of many structures, temporary superintendents of construction are employed; wherever a regular employee is sufficiently competent in knowledge of building materials, house equipment, systems of water, sewer, and lighting, and in the computation of quantities, he is appointed; otherwise suitable superintendents are secured through the Civil Service Commission. Permanency in this force of employees would heighten its efficiency.

On the Colorado River Reservation in Arizona, cottage dormitories have been constructed as an experiment. Each building is 70 feet long by 40 feet wide, with ordinary porches at the front and sleeping porches at the rear, and are one story in height, with 12-foot ceilings. Each dormitory is complete and independent in itself, containing kitchen, dining room, sitting room, rooms for employees, and bathrooms, and will accommodate 20 children. The design and construction of these dormitories make them adaptable to all climates. Plants for day schools which were built were provided with rooms for industrial work and with lavatory and bathing facilities. The increased opportunities for industrial training and for cleanliness well justify the additional cost of this equipment. For new dormitories and for

additions to old buildings, especially in the Southwest, screened sleeping porches were built; in front of the wire, canvas curtains were hung to be dropped for the sake of privacy and for protection from storms. By reason of a new regulation requiring 500 instead of 400 cubic feet of air space for each pupil, readjustments were made. In short, it has been the policy to make every structural change which will aid the campaign for health that is being waged by all branches of the service.

For the sake of durability and economy concrete was much used, under specifications from the office, to take the place of brick and stone masonry, especially in foundations. At places where suitable local stone could not be had concrete was also used for sills, dripstones, and gutters. In a portion of the shop building at the Cushman School, Tacoma, Wash., reenforced concrete was employed, and will be used for the whole of the first floor of a large gymnasium in course of construction at the same school. In working concrete for ordinary purposes Indian labor has proved efficient under the direction of experienced masons.

PURCHASE OF SUPPLIES.

In maintaining the activities of the service the office annually purchases supplies costing well over \$4,000,000. For all purchases, except items required in exigencies, advertisements are made for bids. The goods are usually delivered at our warehouses in New York, Chicago, St. Louis, Omaha, San Francisco, or at factories, and distributed to the field. To avoid duplication and unnecessary expense, such as has existed, bids on the supplies for 1912 were opened in the spring at Chicago and Omaha, and in the fall they were opened at Chicago. While the intention is to change somewhat the point or points of lettings from year to year, the purpose is to confine the lettings in each year to not more than two points. In this way bidders were enabled to avoid the necessity of submitting bids and samples both in the East and the West, and the Government saved the expense of duplicate inspection of samples of several classes of goods. There has been greater competition, with its attendant advantage to the Government in a lower range of prices. The number of bids on coal increased by 95 per cent; on piece goods and clothing, 52 per cent; and on agricultural implements, 76 per cent. To facilitate matters bids were abstracted and contracts sent out directly from the warehouses by a clerical force detailed from the office at Washington. As a reform that will heighten competition, arrangements are being made to have the disbursing officers at each warehouse on the delivery of contracted goods pay for them, instead of submitting the bills to this office for settlement through the Treasury.

In order that we may have every advantage our system of warehouses affords, superintendents were required, before asking authority

to purchase supplies, to secure quotations both from their local dealers and through the nearest warehouse, and to submit these full data to the office. As a consequence the office has been able to give intelligent consideration to every proposed expenditure, arrive at the lowest cost at destination with freight at land-grant rates, and order the purchase accordingly. Furthermore, whereas certain articles requiring special manufacture have been bought yearly, they will be struck from the schedules except for the few purposes for which no other article will do as well. In the stead of these costly goods corresponding trade articles will be substituted.

Economy in smaller ways is being enforced at every point. By way of example, steel barrels were bought in which to ship gasoline and kerosene. The former practice was to require the contractor to put these commodities into tin cans and case the cans in wood. Although the first cost of the steel barrels offset the immediate saving on the contractor's price for gasoline and kerosene, the fact that the barrels can be used repeatedly for years indicates a saving of a considerable sum.

In order to bring the final cost of all goods to a minimum, informal bids for freight were asked of railways that compete on shipments. To the railroad which offers the best rates the whole of our freight shipments between competitive points will be given. Although this plan has not yet been completely worked out, it promises success.

SUPPRESSION OF LIQUOR TRAFFIC.

The use of intoxicating liquors is a direct and incalculable injury to Indians in undermining health and in making them undependable as workmen. Moreover, it furnishes to designing white men a convenient means for carrying out questionable purposes. During the year every effort was used to enforce laws against the liquor traffic.

To prosecute widespread protective operations \$70,000 have been available. One thousand four hundred and seventy-three cases were brought to trial, resulting in 1,168 convictions, 265 dismissals, 34 acquittals, and 6 hung juries. In other words, convictions were secured in a fraction under 80 per cent of the cases.

Throughout the country the necessity of keeping Indians from securing intoxicants is being appreciated. In California, Lassen County considered an ordinance prohibiting the sale of liquor alike to full and mixed bloods, and the town of Upper Lake, at which we have an agency, voted for prohibition. In connection with the situation in Minnesota, discussed at length a little later on, the railways have given their cooperation; the Minneapolis, St. Paul & Sault Ste. Marie Railroad issued instructions to its employees forbidding shipments of intoxicants into the territory concerned. The Legislatures

of California, Montana, Washington, and Wisconsin had under consideration amendments to their present laws against the sale of liquor to Indians, and the Supreme Court of Washington rendered a decision upholding the legality of the State law forbidding the traffic. At Bad River, Wis., the Indians themselves have taken a stand; their business council petitioned the city of Ashland to close certain saloons and to issue no new licenses.

A relatively new intoxicant of a peculiarly insidious form has come into favor with Indians in many parts of the country. From a cactus growing wild in the arid regions of old Mexico just south of the Rio Grande the crown is cut off and dried, becoming the peyote bean of commerce. Among the tribes it is commonly known as mes-cal. As these beans sell for \$3 or \$4 a thousand, and three or four beans suffice to give the full effects of the intoxicating drug in peyote, indulgence is within the reach of all.

The office has been gathering information from every available source concerning the effect of the peyote bean but still experiences some difficulty in getting complete information. Nevertheless, the information now at hand concerning the physiological and sociological results of the use of this drug is such that the office will in every way practicable prevent the Indians from indulging in it further. The physiological and toxic action of peyote places it in the same general class with opium, cocaine, Indian hemp, and chloral hydrate. The alkaloids in peyote act upon the central nervous system. This action, if repeated, unquestionably results in a fixed habit. The normal functions of the human body can not be interfered with at frequent intervals by such an agent as peyote without serious injury resulting. As used by the Indians, peyote is always taken in very considerable quantities, invariably sufficient to produce drug intoxication.

Even if the physiological effects of this drug were not serious, its use would have to be prohibited for the same sociological reasons as have led the Government strongly but tactfully to modify Indian dances. As is well known, exercises which the Indians consider of a religious nature are made the occasion of taking the drug. These meetings are held as often as once a week and invariably last throughout the night. The time occupied in going to these meetings, the demoralizing effects of all-night seances, and consequent nervous languor and exhaustion, very considerably encroach upon the time that should normally be devoted to work. Furthermore, the effects of the drug in making the Indian contented with his present attainments seriously interfere with his progress by cutting off from him the possibility of healthful aspiration.

LIQUOR TRAFFIC IN MINNESOTA.

The suppression of liquor traffic among Indians in Minnesota received a very severe setback during the year. The activities of the service there had been increasingly devoted to exclusion of liquor from territory immediately adjoining reservations and Indian settlements, as well as from the reservations and settlements themselves. The administrative justification of this policy needs no argument; its legal justification was a provision contained in each of a series of treaties by which the different bands of Chippewa Indians, just prior to and during the Civil War, ceded some of their lands to the Government and accepted reservations and other considerations in lieu thereof.

This provision, while varying slightly in the different treaties, guaranteed to the Indians that the laws of the United States prohibiting the introduction of liquor into Indian country should apply with equal force to the whole of the ceded territory as well as to that retained. Some of these ceded lands immediately adjoined Indians' homes and others were remote and now contain only white settlements and towns.

Acting under these laws and treaties, I made every possible attempt to keep liquor away from the Indians. I realized that a strict enforcement of the letter of the law would involve not only this, but also the prevention of its introduction into any part of the ceded territory, which covered two-thirds the State of Minnesota, and included many large towns and cities, among them the city of Minneapolis. I did not attempt to enforce the law throughout the whole territory for two reasons—first, because the office had not the money or the men to see that any orders given to that effect were carried out; and, second, because, in the case of laws passed so long ago to meet conditions which had now, as to a great extent of the territory, utterly changed, I felt that it was my duty to begin by doing what would bring about in the quickest possible time the complete protection which the laws extended to our wards, the Indians. I felt that after I had used every cent of money and every man at my disposal to bring this result about it would then be time enough to consider the immediate duty toward the wider territory and the city of Minneapolis. I felt, and have always felt, that while it was the duty of the Indian Office to exert itself to the utmost to keep liquor away from the Indians, it was no part of its duty, unless under direct and unequivocal order of statute, to keep liquor away from white men, or to take any part whatever in temperance or prohibition movements in white neighborhoods, even in those situated closely to the Indians, provided those communities saw to it that the Indians were not debauched or tempted.

Acting according to this policy, the office bent its first energies toward closing saloons and arresting bootleggers who conveyed liquor into the immediate proximity of the Indians. When we had closed the saloons in one town that did this, we went to the next town, not taking the time to deal with saloons which were rigorously obeying the laws of the State which forbid the sale of liquor to Indians. But this course involved us in so many charges of discrimination, and it was so difficult to sift the totally unjust charges from those that might have had some element of justice, that we decided to abandon this policy, and to mark out that part of the whole ceded territory which immediately surrounded reservations which had in it the largest number of towns that were notoriously selling to Indians.

I drew this line because I knew that, as to the territory within it which immediately and vitally affected the Indians, we had money and men enough to enforce the law. The office gave notice that the saloons within this territory would be closed. Pending consideration of the strong protests that arose from the communities involved, the date was put forward a month, and after further consideration of all the issues involved, the department decided on October 7, 1910, that the liquor provisions of these treaties should be put in force throughout the whole ceded territory, involving a large part of the State of Minnesota, and the city of Minneapolis, without discrimination as to persons or territory.

This order naturally aroused even more violent protests than before, because it affected over two-thirds of the State, in a very large part of which no Indian question whatever was involved.

In some of the treaties there was an authorization for the President, by Executive order, to change the boundaries; in others, only by the action of the Congress could a change be effected. On February 16, 1911, the President modified the treaties where he had the power, and made recommendations to Congress as to the others. The effect of this wise action if supplemented by future congressional action will be to limit the operation of the liquor provisions of the treaties to that portion of the ceded territory immediately adjoining Indian homes, and thus to retain all of the law that was valuable to the Indians. The regulation of liquor traffic in those portions of the ceded territory remote from the Indians, and inhabited exclusively by whites will be left, as it should be, to the State, thus repealing all of the law that could in any way be properly objectionable to the Whites. The Congress adjourned without action.

The matter is further complicated by the institution of a suit by certain liquor dealers seeking to enjoin the officers of the Department from interfering with their business. A temporary injunction was granted and the matter is now pending in the United States Circuit

Court for decision. . Although this case does not directly involve any territory except that ceded by the treaty of 1855, the decision will in all probability control by analogy in all the ceded territory, except that covered by the treaty of 1863 which relates to the territory surrounding the Red Lake Reservation.

The reasoning of the court in granting the temporary injunction was in substance that the act admitting Minnesota into the Union, in 1858, contained the usual provision that Minnesota was admitted on an equal footing with the other States of the Union; that neither that act nor the enabling act of 1857 nor the State constitution contained any limitation on the powers of the State under the former treaties; that one of the well-recognized powers of the other States was, and is, the police power to regulate the traffic of liquor within its borders—hence, that the provision of the treaty was repealed by implication.

Minnesota has admirable State laws for prohibiting the sale of liquor to Indians, and all that we are able to do until this matter now in court is settled is to present such evidence as we find to the State authorities, for their action in the State courts.

GENERAL QUESTIONS OF LAW AND ORDER.

Marriage and divorce continue to raise many perplexing questions of law, but under circumstances that indicate decided progress. The determination of property rights in heirship cases is bringing home to the Indians the necessity of complying with State laws concerning marital relations. Thus the economic development that is taking place is having its effect.

Throughout the reservations general conditions of law and order have been good. Through the efforts for suppression on the part of superintendents, gambling has steadily decreased for at least two years. The crimes and misdemeanors committed by Indians have been only such as may be expected in established communities with much more elaborate organization than exists on the reservations.

INSPECTION.

To keep every part of the Field Service alert and in sympathy with the purposes of the office, and to stop abuses before they could grow, 18 traveling supervisors visited every part of the field as direct representatives of the office. One or more of them inspected every jurisdiction; in all they submitted 440 reports. Eight members of this staff gave their attention chiefly to supervising schools; seven were employed in making investigations; two looked after matters of construction and engineering; and one scrutinized allotment of land. Upon this force of supervisors falls the task of seeing that we lose

nothing we have gained and of preparing and pointing the way for new progress.

It is essential that the supervisors, in a most whole-hearted fashion, should cooperate with one another and should have a distinct unity of purpose in putting into operation each policy of the office. To make the teamwork the supervisors have already shown still more powerful, they met in conference at Denver in September, 1910. The benefits of that meeting were so obvious that they were again called together at Washington in June, 1911, in order that the office, too, might have the advantage of their exchange of criticisms, experiences, and ideas. The result was that all parts of the service were subjected to the keenest analysis, and faults and excellencies were discussed in most intimate ways. The supervisors are chosen for their experience, their breadth of view, and their initiative. In their rounds the coming year it can be confidently expected they will heighten the esprit de corps they have already helped to arouse and encourage, and that every employee in the service will in some degree feel the influence of these two conferences.

OFFICE METHODS.

Because of the large interests involved and the multiplicity and complexity of financial transactions, the high efficiency of the Finance Division of the office is of the utmost importance. This division and the Division of Methods are indispensable and often unrecognized aids to the office and the whole service in producing tangible results.

The bookkeeping section has been completely reorganized during the year and many obsolete methods discarded. The President's Commission on Economy and Efficiency made an extended examination of our system in bookkeeping and have used our system of accounting as the basis of their Circular No. 14.

The section of accounts examines all disbursing officers' accounts. The fact that there are 217 disbursing officers will somewhat indicate the amount of work this section has to accomplish. To facilitate relations with the field officers, the practice of taking exceptions to mere technicalities has been stopped. This has not only eliminated a great deal of irritation on the part of officers who were honestly striving to perform their duties, but has also done away with much waste of time and effort in the office without any lowering of high business standards. Because of increased work in this section in examining the constantly growing collections and deposits of individual Indian money a new form of handling these funds has recently been submitted to the officers of the Treasury Department.

In the claims sections, too, efforts are being made to expedite routine and to lessen expense. In this section claims for contract supplies, transportation, and the like, not paid by disbursing officers, are

examined and then sent to the Treasury Department for payment by warrant. A plan now in operation of having disbursing officers pay a certain part of these claims has given gratifying results to the office and satisfaction to public creditors; for the old methods necessarily involved much delay in payment.

Handling all incoming and outgoing mail, keeping the very extensive files, doing all stenographic work, and constantly endeavoring to improve the methods of the office, the Methods Division is our mechanical department. Upon it falls a good share of the increased burden from the intensified activities of the service as it works out its problems.

During the fiscal year the employees of the office performed a total of over 1,600 days' overtime, for which they received no pay. This is an average of nearly 7 days for each person employed, and does not include the great amount of work done between 8 and 9 in the morning and 4.30 and 5 o'clock in the afternoon, when no records of overtime are kept.

In our files are the original documents for a great part of the history of the relations of the Government with the Indians since the middle of the eighteenth century. So far as these records have suffered from time and wear they are being restored; 75 large boxes of unfiled papers are being sorted and filed; and the regular files from the establishment of the office in 1824 are being mended, classified, renewed, and placed in flat files. During the year a special appropriation of \$5,000 has been available; an additional appropriation of a like sum will be necessary before this work can be completed.

CURRENT PROBLEMS.

There are several problems now before the office which are receiving its most earnest study. Most of them are still in too inchoate a state to be discussed at any length at this time. It is, however, important to state briefly what each problem is.

At the southwestern end of the San Carlos Reservation, in Arizona, it is claimed that there is a site for a big dam and reservoir, the waters impounded by which could be used for the benefit of both the Indians and the white settlers in the valley of the Gila River between the San Carlos Reservation and down to and on the Pima Reservation. The Southern Pacific Railroad is applicant for a right of way through this reservoir and dam site. The railroad desires a grade near the river. Settlers in the valley have formed an organization, called the Casa Grande Valley Water Users' Association, and are urging that the railroad be made to take a grade sufficiently high so that no possible future utilization of the waters of the river can be interfered with. On the other hand it has been claimed that

this dam is a project absolutely not feasible. The whole question is receiving the most thoroughgoing study with a view to protecting on the one hand all the rights and equities of the Indians and the settlers, and on the other of not delaying or imposing undue hardship on railroad development of the country through making demands of the railroad based on the needs of a utilization scheme not practicable.

The office is planning this fall to allot their whole reservation to the Camp McDowell Indians, who live on the Verde River some distance northeast of Phoenix. This will be done irrespective of whether or not any of their lands can have a commercially feasible irrigation project applied to them. The whole question of water for these Indians is receiving the most careful study.

Geronimo's band of Apache Indians, now mostly descendants of the original prisoners, are still under the jurisdiction of the War Department at Fort Sill. The office has taken the position that any of these Indians who wish to remain there when freed from the jurisdiction of the War Department, as it is urgently hoped that they will soon be, should be allotted there; but that any who wish may make homes among their relatives on the Mescalero Reservation, or at any other place they may choose where we can provide for them. The alternative should be absolutely voluntary with the Indians.

On the Yakima Reservation in Washington is a very complex question as to the best way in which to provide these Indians with water. The present plan, which has been before the Indians for over a year, is that if they do not have the means otherwise they should sell a part of their allotments in order that the remainder might be greatly enhanced in value by having water applied to it. For various causes, which are now under investigation, the Indians have not taken at all kindly to this plan. Any other plan would involve the appropriation by the Congress of many millions of dollars to construct a project.

In Oklahoma the price of oil rose during the year from 40 to 48 cents per barrel and is 50 cents at the present time. The price is still wholly inadequate, and the office is using every proper endeavor to bring the price up to what it believes to be the fair market value of the product.

The affairs of the Pueblo Indians, particularly those in New Mexico, have been for the past year the subject of very careful study. The doubtful legal status of these people and their very strong personality both as communities and as individuals, will make this problem in the coming year one of the heaviest with which the office has to deal.

We are considering the right disposition of over one and a half million acres in southeastern Oklahoma known as the proposed forest reserve, which covers lands tributary to the Red River, and the right handling of which would undoubtedly effect great savings in the necessary frequent dredging of the river.

We believe we should take back under single Indian Office administration several million acres of timbered lands on Executive order Indian reservations transferred in part in the early period of the year 1909 to the jurisdiction of the Forest Service because of lack of means to handle them as they should be handled on the part of the Indian Office. Legislation passed subsequent to that time has relieved this defect and the office can now lay its plans to handle these tracts and from the proceeds of timber, cut according to conservation principles, make the administration of Indian affairs on the reservations involved substantially self-supporting and no longer a burden on the general funds of the Treasury.

THE WHITE EARTH SITUATION.

Immediately after original discoveries by a special agent of the Indian Office, the department, in the summer of 1909, sent a United States Indian inspector, together with the special agent, to investigate further the affairs of the White Earth Indians, due to the attempted alienation of lands by full-blood and minor Indians under the provisions of the act of June 21, 1906 (34 Stat. L., 325, 353), which removed the restrictions from lands of adult mixed-blood Indians of the White Earth Reservation.

It was early discovered that there existed hundreds of fraudulent conveyances of both land and timber of full-blood and minor Indians, and the question of protecting the interests of these Indians by actions in the courts was, as soon as the facts could be obtained, referred to the Department of Justice. The Attorney General of the United States assigned to the work Hon. M. C. Burch, special assistant to the Attorney General, and as his assistant Hon. E. H. Long, special assistant to the Attorney General, with offices at Detroit, Minn. The department detailed Mr. J. H. Hinton of the Indian Office as special Indian agent to assist.

During the past year 901 equity suits have been filed. About 60 more were ready to be filed on the next rule day of the court after June 30, 1911. About 125 cases require further consideration before they are ready to be filed. This will make a total of 1,086 cases. Since the work has begun 18 mortgages have been released, 7 quitclaim deeds received, 1,800 acres restored to the Indians without decree of any court, and 3 criminal indictments have been obtained involving 10 persons.

Meanwhile, an official roll showing the blood status of White Earth allottees has been prepared and approved by the department.

It is believed that the effective work which is being performed under the direction of the Attorney General will result in the restoration of a large part, if not all, of the lands involved to the Indians to whom the allotments were originally made, or, in case of their decease, to their heirs. Complete success means the recovery of 142,000 acres, valued at over \$2,000,000, and for timber valued at \$1,755,000, on behalf of more than 1,700 Indians, forming almost 34 per cent of the White Earth allottees.

Vigorous opposition to this work has naturally developed, and every kind of effort has been made to debauch the Indian testimony on which the recovery of these valuable holdings will depend. A great deal of criticism has also come from innocent purchasers residing in other States of the Middle West, who are seeking to make legitimate purchases on the White Earth Reservation. To relieve the situation as much as possible, the Department of Justice and the Interior Department have cooperated in issuing patents in fee to adult mixed-blood Indians as fast as possible in all cases where there has been no apparent taint of fraud. This removes any just criticism, which could at any time be made, about the action of the Indian Office, and the burden of having, as the cry was, "generally clouded titles in that country," is placed upon the speculators and others who consummated the frauds, rather than upon the department, which is protecting the Indians.

MEXICAN KICKAPOO INDIANS.

The long-pending complicated and expensive Mexican Kickapoo cases have been settled in the Indians' favor.

The Kickapoo Indians were given trust allotments of 80 acres each near Shawnee, in Oklahoma, in April, 1894, subject to the usual limitations against sale or encumbrance. An agitation was started shortly afterwards by outsiders to move such of these Indians as were then living in Oklahoma to Mexico to join a colony of Kickapoos already there, in the hope of continuing their tribal life unchecked by the encroaching tide of civilization.

Subsequent developments have shown pretty conclusively that some of the foremost promoters of this plan were not actuated wholly by philanthropic motives, but by a desire to get these valuable allotments for themselves as cheaply as possible. At any rate, they argued that the success of their plan required that the Oklahoma allotments held in trust by the Government for the Indians be sold and the proceeds used in transporting to and settling these Indians in their new homes.

Under the act of June 21, 1906 (34 Stats., 363), removing the restrictions against alienation and encumbrance above referred to, the movement began and many of the Indians were easily persuaded to give deeds to their Oklahoma lands, in many cases for considerably less than they were worth. It appears that the purchasers were not always careful to have the deeds signed by the Indian owners, but deeds good on their face were obtained and recorded for about 75 allotments.

The Indian Office and the Interior Department, believing that these Indians had illegally sold their lands and had in many cases been defrauded, immediately called upon the Department of Justice for legal assistance and advice. After careful investigation equity suits were brought in the United States Circuit Court for the Western District of Oklahoma to set aside these deeds and recover the allotments. The defendants demurred and the court took the cases under advisement. During the interim the Government secured indictments of some of the defendants on the grounds of forgery and other frauds. The criminal proceedings were opposed by the defendants with every resource at their command. It took many months, for instance, before extradition proceedings were successful. Finally, after many delays and great expense, the Government has been successful at every point. The court sustained the Government's contention in the equity suits that, notwithstanding the removal of restrictions by the act of 1906, the allotments were still held in trust for the Indians by the United States, and that the Indian grantors had not therefore the capacity to execute the deeds without the concurrence of the Government acting through the Secretary of the Interior.

Thereupon the principal defendants capitulated and proposed settlements in suits involving 69 out of the 75 allotments. The settlements, which were accepted, provided for the complete restoration to the Indians of the allotments with the mesne profits and that the Government would use its influence with the Indians to have them give back to the defendants certain lands in Mexico and moneys in Texas secured for the Indians by the defendants or deposited as consideration for the Indian deeds. Similar settlements are expected in the other six cases.

CHILDREN PROTECTED.

Here I wish to make an exception in mentioning two matters of great importance that have taken place largely since the end of the fiscal year. Great results have been obtained in the Five Civilized Tribes in Oklahoma, looking to the protection of the estates of minor and full-blood Indians.

In Seminole County the cases of alleged fraud became so numerous the Congress recognized the necessity of giving special assistance and attention, and provided for the employment of a special assistant to the Attorney General to aid in prosecutions. These prosecutions have been carried on through the cooperation of the two departments and with the aid and assistance of the State court officials, with the result that five or six of the principal defendants have been convicted and given sentences in the State penitentiary of from 7 to 14 years, principally for forgery. And recently the Seminole County grand jury returned 21 additional indictments against 7 individuals.

In McCurtain County the probate conditions having been very unsatisfactory, a concerted effort was made by the State, Federal, and tribal officers to clear up the situation. On July 1, a separate district Indian agency was organized for that county alone, and special agents of the department and of the State and the Choctaw tribal attorneys actively took up the investigation of numerous complaints of irregularities. The investigation culminated first in the resignation, to take effect immediately, of the county judge of that county, the recovery and refunding to the proper credit of guardians of minors of approximately \$65,000, the quitclaiming of over 4,100 acres of land, and the securing by the State officials of articles of agreement with three of the largest purchasers of land through the probate court, under which agreement they are to submit to an arbitration board, to be composed of a representative of the State, a member to be designated by the Secretary of the Interior, and a third member to be selected by the land owner, all of their titles procured through this probate court.

Results thus far have been most gratifying, and show an earnest desire on the part of the authorities of the State of Oklahoma to assist the Government in protecting the full-blood and minor Indians.

CREEK TOWN-LOT SUITS.

Two hundred and thirty-one Creek town-lot suits, involving 1,500 lots in different towns of the Creek Nation, have been brought by special counsel.

Various persons, being excessive lot holders, attempted to procure title thereto at one-half the appraised value by the use of "dummies," to whom such lots were scheduled and appraised, and by subsequent conveyances back to the conspirators. As a result the Creek Nation was defrauded of one-half the value of these lots, in violation of the Creek agreement ratified May 25, 1901 (31 Stat. L., 861, 866).

Twenty-five Creek town-lot suits are still pending and undetermined. There has been paid for attorneys' fees and expenses approximately \$26,000. There has been recovered in money for the

Creek Nation about \$86,000, and 94 lots have also been recovered, worth approximately \$60,000.

“STATE” INDIANS.

In the fiscal year investigations were made concerning the status of several detached groups of Indians who have long been more or less independent of Government supervision. It is noteworthy that in many cases these Indians have worked out for themselves, with some assistance from their States, problems which the service has still to meet in other parts of the field.

The Catawba Indians of South Carolina have for some time endeavored to enlist the assistance of the United States in their affairs. They belong to Siouan stock, and are the survivors of a division of Indians which in the last century included about 28 confederated tribes.

A special agent reported that, without objection from the Federal Government, the State had assumed sovereign rights over the tribe and its former landed interests. As early as 1763 the provincial government had carried on negotiations, and given the tribe a reservation 15 miles square; under subsequent acts of the State legislature these lands were leased for rentals that appear to have brought from \$2,500 to \$5,000 a year. In 1840, by another treaty, the State attempted to extinguish the Indian title in return for lands elsewhere. The State asserts it has paid the tribe since 1840 a total of \$86,900. The governor of South Carolina has recently been authorized by the State legislature to investigate the requests of the Indians for more land and assistance.

At present the Catawbas occupy a reservation of about 630 acres on the west bank of the Catawba River. The chief, a full-blood, is a well educated man. According to his list there are 97 persons descended from Indian mothers and 13 from white mothers, a total population of 110 entitled to tribal recognition. There are also a few Catawbas among the eastern Cherokees in North Carolina, some of the same stock now live in Oklahoma, and a few are scattered in other States.

Among the Catawbas in South Carolina the special agent found no indication of tuberculosis or of trachoma; these people are in remarkably good health. They have almost lost their own language, using English. They are punctual in meeting financial obligations, and among their white neighbors have an excellent reputation for integrity and for observance of the law.

The appropriation act of July 29, 1848 (9 Stat. L., 264), provided for the removal of the Catawba tribe, South Carolina, to the Indian country west of the Mississippi. Although the records indicate that some attention was given to their removal, and that some members of

the tribe probably migrated and were naturalized by the Choctaw Nation and possibly by the Chickasaw Nation, it does not appear that any definite action was ever taken by the Federal Government.

The questions concerning the status and the rights of these Indians will be further studied. But if South Carolina should provide lands, it would appear that these Indians may become self-supporting without aid from the United States.

In Texas the Alabama Indians, numbering 192, were found occupying a position of economic independence. Near Livingston they have 1,280 acres of land granted conditionally to them by the State about 1850. All of this land that is cultivable they farm, but they depend more upon work at lumber camps, on railroads, and on the farms of the whites. They are sober, thrifty, industrious, and self-sustaining, although poor.

These people are as advanced as their white neighbors, having abandoned tribal customs; they speak English almost entirely, and have adopted the manners and dress of white persons. They live in houses of their own construction of two and three rooms, as good as is compatible with their circumstances. The children attend a public school within the village. And the great majority of these Indians are members of a mission church, to the authorities of which they submit all disputes.

As the lumber operations in which the Alabamas now get their chief employment will soon cease, these Indians need more land and opportunities for manual instruction. They are strongly inclined toward agriculture and with proper training would become excellent farmers.

The report to the Congress upon these Indians was published as House Document No. 1232, Sixty-first Congress, third session.

LEGISLATION.

Tribal organization is breaking up and the office, in its administrative activities, has its work greatly increased through the necessity of dealing separately with many individuals where formerly it dealt with groups; the point of evolution thus reached in transacting business is almost epochal, for it marks the time when each Indian begins to stand forward as his own business man, and, in a measure, reaches the status of white citizens.

For the year 1910 the appropriation act carried \$11,800,000; the act for the year 1911 carried \$9,200,000; for 1912, the act of March 3, 1911 (36 Stat. L., 1058), carried \$8,800,000; and the estimates for 1913 will probably show a slight decrease further, although an increase of a considerable amount for 1913 would lead to a wise expedition of many lines of our work. The estimates last year were so cut to the bone that more than one year of this low limit of appropria-

tions might seriously impair efficiency. I have tried to prevent any possibility of this impairment by lifting such appropriations in the current estimates as are necessary to secure, first, a decided improvement in the quality of our personnel, and, second, freedom from danger to Indian children and to employees from fire and from unsanitary conditions that exist because of lack of proper repair and replacement funds for our agency and school plants.

Another year, on the foundation that will be then securely laid if the Congress appropriates according to these estimates, we shall need more funds for our allotment and irrigation work and our health and industrial campaign. I have not asked as a rule for increases in these funds this year, as I feel that before we take on more funds we should lift salaries of our field managers to a point that will insure a more constructive and economical use of the funds we now have. This program does not necessarily mean that the grand total of our Indian appropriations from the United States Treasury will cease moving downward. It does mean that some of our less needed funds will diminish and that our more vital funds—those connected with health and industries—will increase, and in more and more cases will increase out of Indian moneys. Thus the Indians will steadily become self-supporting tribally as well as individually.

Legislation of importance appears also in section 28 of the appropriation act of March 3, 1911, which provides that hereafter payments to Indians of money appropriated by the Congress in satisfaction of the judgment of any court shall be made under the direction of the officers of the Interior Department charged by law with the supervision of Indian affairs, with a regular accounting to the Treasury.

DECISIONS.

Several judicial decisions of the year have been of importance to the administration of this office. On February 13, 1911, the Court of Claims rendered a modified decision to the effect that the Ute Indians are entitled to judgment against the United States for a little more than \$3,500,000, chiefly as compensation for lands included within national forest reserves. The decree awarded 6 per cent of the judgment as attorneys' fees.

In the case of *Moses Whitmire, trustee, v. The United States and Cherokee Nation*, the Court of Claims, on February 20, 1911, rendered a decision requiring the Secretary of the Interior to give to those freedmen and free colored persons whose names appear on the Kern-Clifton roll, but were omitted from the Dawes Commission roll, full participation in the distribution of the property of the Cherokee Nation. This decree was in favor of about 1,500 persons and their descendants, in all about 3,000 persons. An appeal has been taken to the Supreme Court.

Because of losses through opening of the Mille Lac Reservation in Minnesota to settlement under the general land laws, the Court of Claims on May 29, 1911, handed down judgment against the United States in favor of the Mille Lac and other Chippewa Indians for a little more than \$764,000. Under the act of January 14, 1889 (25 Stat. L., 642), which extends to all Chippewa Indians in Minnesota the right to participate in the proceeds from the sale of Chippewa lands, this judgment is to be distributed among all Chippewa Indians in Minnesota.

In 1842 the confederated tribe of Sac and Fox ceded their lands in Iowa to the United States and removed to Kansas, but a band, in number not more than one-ninth of the tribe, returned to Iowa, where they have since resided by permission of the State. The main part of the tribe in turn ceded their lands in Kansas and were removed to land now in the State of Oklahoma. Upon a claim of the Iowa band against those Indians now in Oklahoma and against the United States for shares in certain appropriations of Congress and in the proceeds of lands, the Supreme Court decided adversely on April 24, 1911.

In *Hallowell v. The United States*, the Supreme Court of the United States, on May 15, 1911, held that the United States has the right to regulate or prohibit the introduction of intoxicating liquors upon an allotment in Nebraska during the trust period, even though the Indian owner became a citizen by the issuance of the trust patent and is subject to the laws of Nebraska. The court said the mere fact that citizenship had been conferred upon Indians did not necessarily end the right or duty of the United States to pass laws in their interest as a dependent people.

In the case of *Tiger v. Western Improvement Co.*, decided May 15, 1911, by the Supreme Court of the United States, it was held that, although a full-blood member of the Five Civilized Tribes was a citizen of the United States, so long as the Government held his land in trust the Congress had plenary power to pass additional legislation regulating the alienation of his land, as in the act of April 26, 1906 (34 Stat. L., 137).

In *Gritts et al. v. The Secretary of the Interior et al.* the Supreme Court of the District of Columbia held the same act constitutional in that it provided for the enrollment of certain children of the Cherokee Nation, and that they should receive allotments from the surplus lands of the nation or a sum from the tribal funds in lieu of lands. This case affects about 6,000 children. The case has been appealed to the Court of Appeals of the District of Columbia.

The case of *Bond v. the United States et al.*, decided in the Circuit Court of the United States for the District of Oregon, September 12,

1910, held that under the act of June 25, 1910 (36 Stat. L., 855), the Secretary of the Interior had exclusive jurisdiction to determine heirship and descent as they may affect allotted lands during the trust period, said act operating by implication to repeal the act of February 6, 1901 (31 Stat. L., 760), with the result that the authority of Federal courts to adjudicate cases of this nature had immediately ceased.

During the year the Comptroller of the Treasury has rendered several decisions which facilitate the use in beneficial ways of tribal moneys, usually referred to as "Indian moneys, proceeds of labor." On August 6, 1910, the assistant comptroller held that the use of such moneys derived from the sale of timber on unallotted lands, under section 7 of the act of June 25, 1910 (36 Stat. L., 855), was authorized for the purpose of aiding and enlarging the school service on the respective reservations.

September 15, 1910, the comptroller held that the Secretary of the Interior is authorized, in his discretion, to use "Indian moneys, proceeds of labor" for the purchase of supplies or the payment of employees when no appropriations are available and the Government is not bound by law, treaty, or agreement to defray the expense. On June 24, 1911, the acting comptroller gave a similar decision concerning the case where a specific appropriation is not sufficient to meet the needs of the Indian Service and the appropriation is not exclusive by reason of obligations of the Government.

On June 24, 1911, the acting comptroller also held that the appropriation in the act of March 3, 1911 (36 Stat. L., 1061), for the support and civilization of the respective tribes is specifically for the purpose named, and the appropriation for contingencies in the same act can not be used for the same ends.

The decision of the assistant comptroller, of April 12, 1911, is important in connection with the work of the office in suppressing the liquor traffic. It was held that the Secretary of the Interior has authority to use the appropriation in the act of March 3, 1911 (36 Stat. L., 1059), in procuring evidence of the traffic among Indians to whom the United States owes protection for use in prosecuting cases in State courts for violation of State laws prohibiting the traffic, if the Secretary is of the opinion that he can in this way best effectuate the purposes of the act.

ATTITUDE IN ADMINISTRATION.

A policy which I have pursued undeviatingly since my first day as Commissioner of Indian Affairs is to welcome without reserve in the Indian Office and throughout the field proper publicity.

The Indian Office, like all other human organizations, has its faults, makes even serious mistakes, and sometimes does things wrong.

Furthermore, positive injury has come to the Indian Service from not enough free and general discussion of Indian policies.

Indian affairs are, even under the best possible administration, peculiarly a field for the grafter, and all other wrongdoers. The lands and the moneys of the Indians offer a bait which the most satiated fish will not refuse, and frequently a whole local community will get on the wrong track toward the Indians. I have heard genuinely respectable members of a community say that the best thing that could happen to the Indian was to lose all his lands and all his money, and have to go to work; they say this notwithstanding the fact that by such a time the Indian would have no physique left, for drink and disease are allies of those who seek to prey upon him.

To offset all this, not only publicity as to Indian affairs, but the freest discussion of all divergent views with regard to them is essential. I have felt it a distinct loss to my administration that many persons who are accustomed to think and write on Indian subjects have never paid the Indian Office a visit, and sought to learn first hand here what we are trying to do, and how.

If things of any sort are going wrong, every officer in the service, on behalf of his own reputation, is the most concerned in righting them, and no man who is doing his duty can have anything to fear from any kind of an investigation. While some of the reservations are what might still be technically called closed reservations, I prefer to handle them all as open propositions. The day has gone by, even if it were still desirable, which I do not admit, to run them from a closed administrative point of view on the theory that "too many cooks spoil the broth." They must be run to-day, and I am glad that it is so, in the light of critical publicity, and the Indians, however incompetent, must, like the rest of us, to some extent run their risks from interested or dishonest advisers and learn for themselves to choose sound counsel. The number of people now settling around all the reservations, and even on most of them, makes this course inevitable.

The fact that this is so makes the work of every superintendent a vastly difficult one. While he must listen to all and suppress nothing, it is still his duty to act as he thinks right, only, of course, being careful to see that his reasons are clearly stated for the public to consider. If any superintendent feels that this is too difficult a task, he should be somewhat comforted by the fact that the commissioner has even more of such difficulties to encounter.

Respectfully,

ROBERT G. VALENTINE,
Commissioner.

The SECRETARY OF THE INTERIOR.

TABLE 5.—General data for each Indian reservation, under what agency or school, tribes occupying or belonging to it, area not allotted or specially reserved, and authority for its establishment.

Name of reservation and tribe.	Area (unallotted).	Date of treaty, law, or other authority establishing reserve.
ARIZONA.		
Camp McDowell..... (Under Camp McDowell School.) Tribe: Mojave Apache.	Acres. 24,971	Executive order, Sept. 15, 1903; act of Apr. 21, 1904, vol. 33 p. 211. (See Ann. Rept. 1905, p. 98.)
Colorado River ¹ (Under Colorado River School.) Tribes: Chemehuevi, Ka-wia, Cocopa, ⁴ Mojave.	² 240,640	Act of Mar. 3, 1865, vol. 13, p. 559; Executive orders, Nov. 22, 1873, Nov. 16, 1874, and May 15, 1876. (See sec. 25, Indian appropriation act, approved Apr. 21, 1904, vol. 33, p. 224.)
Fort Apache..... (Under Fort Apache School.) Tribes: Chilion, Chirica-hua, Coyotero, Mim-breño, and Mogollon Apache.	² 1,681,920	Executive orders, Nov. 9, 1871, July 21, 1874, Apr. 27, 1876, Jan. 26 and Mar. 31, 1877; act of Feb. 20, 1893, vol. 27, p. 469; agreement made Feb. 25, 1896, approved by act of June 10, 1896, vol. 29, p. 358. (See act of June 7, 1897, vol. 30, p. 64.)
Fort Mojave..... (Under Fort Mojave School.) Tribe: Apache.	17,323	Executive orders Dec. 1, 1910, and Feb. 2, 1911. Sec. 11, act June 25, 1910 (36 Stat., 855-858). Lands now being allotted. See 18579-1910.
Gila Bend..... (Under Pima School.) Tribe: Papago.	³ 10,231	Executive orders, Dec. 12, 1882, and Jan. 17, 1909. (See 4106, 1909.)
Gila River..... (Under Pima School.) Tribes: Maricopa and Pima.	358,789	Act of Feb. 23, 1859, vol. 11, p. 401; Executive orders, Aug. 31, 1876, Jan. 10, 1879, June 14, 1879, May 5, 1882, and Nov. 15, 1883, Mar. 22, May 8, and July 13, 1911.
Havasupai (Supai)..... (Under Havasupai School.) Tribe: Havasupai.	² 518	Executive orders, June 8 and Nov. 23, 1880, and Mar. 31, 1882.
Hopi (Moqui)..... (Under Moqui School.) Tribe: Hopi (Moqui) and Navajo.	2,472,320	Executive order, Dec. 16, 1882. Act of Mar. 1, 1907 (34 Stat. L., 1021). See 45096-1910.
Navajo ⁴ (Under Leupp, Navajo, Western Navajo, San Juan Schools, and Pueblo Bonito.) Tribe: Navajo.	11,861,034	Treaty of June 1, 1868, vol. 15, p. 667, and Executive orders, Oct. 29, 1878, Jan. 6, 1880, two of May 17, 1884, and Nov. 19, 1892. 1,769,600 acres in Arizona and 967,680 acres in Utah were added to this reservation by Executive order of May 17, 1884, and 46,080 acres in New Mexico restored to public domain, but again reserved by Executive orders, Apr. 24, 1886, Jan. 8, 1900, and Nov. 14, 1901. Executive orders of Mar. 10, and May 15, 1905, 61,523 acres added to reservation, and by Executive order of Nov. 9, 1907, as amended by Executive order of Jan. 28, 1908, 2,972,160 acres were added. 2,064 Indians have been allotted 328,963 acres under the act of Feb. 8, 1887 (24 Stats., 388), as amended. By Executive orders of Dec. 30, 1908, and Jan. 16, 1911, the surplus lands, approximately 1,641,180 acres, in that part of the extension in New Mexico restored to the public domain (see 35 Stat. L., 457 and 787). (See 1277-9.) Act of May 27, 1902 (32 Stat., 264).
Papago..... (Under San Xavier School.) Tribe: Papago.	³ 27,583	Executive order, July 1, 1874, and act of Aug. 5, 1882, vol. 22, p. 291. 41,606 acres allotted to 291 Indians, and 14 acres reserved for school site, the residue, 27,583 acres, unallotted. (See letter book 203, p. 408.)
Salt River..... (Under Camp McDowell School.) Tribes: Maricopa and Pima.	⁴ 46,720	Executive orders, June 14, 1879, and Oct. 20, 1910; Sept. 28 and Oct. 23, 1911. See 26731-1910. (See Senate Doc. 90, 58th Cong., 2d sess.)
San Carlos..... (Under San Carlos School.) Tribes: Arivaipa, Chilion, Chiricahua, Coyotero, Mimbreno, Mogollon, Mojave, Pinal, San Carlos, Tonto, and Yuma Apache.	² 1,834,240	Executive orders, Nov. 9, 1871, Dec. 14, 1872, Aug. 5, 1873, July 21, 1874, Apr. 27, and Oct. 30, 1876, Jan. 26 and Mar. 31, 1877; act of Feb. 20, 1893, vol. 27, p. 469; agreement made Feb. 25, 1896, approved by act of June 10, 1896, vol. 29, p. 358. (For fuller text see Misc. Indian Doc., vol. 49, p. 159.) (See act of June 7, 1897, vol. 30, p. 64; act of Mar. 2, 1901, vol. 31, p. 952.) Executive order of Dec. 27, 1902.
Walapai..... (Under Truxton Cañon School.) Tribe: Walapai.	730,880	Executive orders, Jan. 4, 1883, Dec. 22, 1898, and May 14, 1900.
Total.....	19,307,174	

¹ Partly in California.² Outboundaries surveyed.³ Surveyed.⁴ Not on reservation.⁵ Partly in New Mexico. (See Table 6).⁶ Partly surveyed.

Agreement ratified by act of Feb. 28, 1877, vol. 19, p. 254, and Executive orders Aug. 9, 1879, and Mar. 20, 1884 (1,520,640 acres in South Dakota); unratified agreement of Oct. 17, 1882. (For modification see sundry civil appropriation act approved Mar. 3, 1883, vol. 22, p. 624; for text see Misc. Indian Doc., vol. 14, p. 305.) Act of Congress of Apr. 30, 1888, vol. 25, p. 94, not accepted. Act of Congress, Mar. 2, 1889, vol. 25, p. 888. President's proclamation of Feb. 10, 1890, vol. 26, p. 1554. Under act of Mar. 2, 1889 (25 Stats. 888), and authority of the President of Sept. 26, 1905, 4,011 Indians have been allotted 1,273,169 acres, leaving unallotted 364,598 acres. [See act of May 29, 1908 (35 Stat. L., 444, 451, and 460), and act of Mar. 1, 1907 (34 Stat. L., 1041).] Under President's proclamation of Aug. 21, 1909, 1,061,500 acres were opened to settlement.
Turtle Mountain..... (Under Turtle Mountain School.) Tribe: Pembina Chippewa.		Executive orders Dec. 21, 1882, Mar. 29 and June 3, 1884. Agreement made Oct. 2, 1892, amended by Indian appropriation act approved and ratified Apr. 21, 1904, vol. 33, p. 194. 43,820 acres allotted to 326 Indians and 186 acres reserved for church and school purposes under the above-named act. Allotments to 1,404 members of this band on public domain aggregating 213,543 acres have been approved.
Total.....	1,213,505	
OKLAHOMA.		
Cherokee..... (Under Union Agency.) Tribe: Cherokee.	1 50,300	Treaties of Feb. 14, 1833, vol. 7, p. 414, Dec. 29, 1835, vol. 7, p. 478, and July 19, 1866, vol. 14, p. 799; agreement of Dec. 19, 1891, ratified by tenth section of act of Mar. 3, 1893, vol. 27, p. 640; agreement ratified by act of July 1, 1902, vol. 32, p. 716. Approximately 40,194 Indians have been allotted 4,348,760 acres.
Cheyenne and Arapaho..... (Under Cheyenne and Arapaho, Cantonment and Seger schools.) Tribes: Southern Arapaho and Northern and Southern Cheyenne.		Executive order Aug. 10, 1869; unratified agreement with Wichita, Caddo, and others. Oct. 19, 1872. (See Ann. Rept., 1872, p. 101.) Executive orders of Apr. 18, 1882, and Jan. 17, 1883, relative to Fort Supply Military Reserve (relinquished for disposal under act of Congress of July 5, 1894, by authority of Executive order of Nov. 5, 1894; see General Land Office Report, 1899, p. 153). Executive order of July 17, 1883, relative to Fort Reno Military Reserve. Agreement made October, 1890, and ratified and confirmed in Indian appropriation act approved Mar. 3, 1891, vol. 26, pp. 1022-1026. 528,789 acres allotted to 3,331 Indians; 231,828.55 acres for Oklahoma school lands; 32,343.93 acres reserved for military, agency, mission, etc., purposes; the residue, 3,500,562.05 acres, opened to settlement. (See Pres. proc. Apr. 12, 1892, vol. 27, p. 1018.) Executive order, July 12, 1895. President's proclamation of Aug. 12, 1903, vol. 33, p. 2317. Act June 17, 1910 (36 Stat., 533), 57,637-10.
Chickasaw..... (Under Union Agency.) Tribe: Chickasaw.	1 879,749	Treaty of June 22, 1855, vol. 11, p. 611; agreement of Apr. 23, 1897, ratified by act of June 28, 1898, vol. 30, p. 505; act of July 1, 1902, vol. 32, p. 641, ratifying agreement of Mar. 21, 1902; act of Apr. 21, 1904, vol. 33, p. 209; act of Apr. 28, 1904, vol. 33, p. 544. Approximately 10,984 Indians have been allotted 3,703,080 acres.

1 Surveyed.

TABLE 5.—General data for each Indian reservation, under what agency or school, tribes occupying or belonging to it, area not allotted or specially reserved, and authority for its establishment—Continued.

Name of reservation and tribe.	Area (unallotted). ¹	Date of treaty, law, or other authority establishing reserve.
OKLAHOMA—continued.		
Choctaw..... (Under Union Agency.) Tribe: Choctaw.	<i>Acres.</i> 2,590,043	Treaty of June 22, 1855, vol. 11, p. 611. Same as Chickasaw. Approximately 26,700 Indians have been allotted 4,360,000 acres.
Creek..... (Under Union Agency.) Tribe: Creek.	72,813	Treaties of Feb. 14, 1833, vol. 7, p. 417, and June 14, 1866, vol. 14, p. 785, and deficiency appropriation act of Aug. 5, 1882, vol. 22, p. 265. (See Ann. Rept., 1882, p. LIV.) Agreement of Jan. 19, 1889, ratified by act of Mar. 1, 1889, vol. 25, p. 757; President's proclamation Mar. 23, 1889, vol. 26, p. 1544; agreement of Sept. 27, 1897, ratified by act of June 28, 1898, vol. 30, p. 514; agreement of Mar. 8, 1900, ratified by act of Mar. 1, 1901, vol. 31, p. 861; President's proclamation of June 25, 1901, vol. 32, p. 1971; agreement of Feb. —, 1902, ratified by act of June 30, 1902, vol. 32, p. 500; President's proclamation of Aug. 8, 1902, vol. 32, p. 2021. (See act of May 27, 1902, vol. 32, p. 258; act of Apr. 21, 1904, vol. 33, p. 204.) Approximately 18,700 Indians have been allotted 3,000,000 acres.
Iowa..... (Under Sauk and Fox School.) Tribes: Iowa and Tonkawa.		Executive order, Aug. 15, 1883; agreement May 20, 1890, ratified by act of Feb. 13, 1891, vol. 26, p. 753. 8,605 acres allotted to 108 Indians; 20 acres held in common for church, school, etc.; the residue opened to settlement. Proclamation of President Sept. 18, 1891, vol. 27, p. 989. (See Ann. Rept., 1891, p. 677, and letter book 222, p. 364.)
Kansa or Kaw..... (Under Kaw School.) Tribe: Kansa or Kaw.		Act of June 5, 1872, vol. 17, p. 228; 260 acres reserved for cemetery, school, and town site. Remainder, 99,644 acres, allotted to 247 Indians; act of July 1, 1902, vol. 32, p. 636, ratifying agreement, not dated. Act Mar. 3, 1909. (35 Stat. 778.)
Kickapoo..... (Under Shawnee School.) Tribe: Mexican Kickapoo.		Executive order, Aug. 15, 1883; agreement June 21, 1891; ratified by act of Mar. 3, 1893, vol. 27, p. 557. 22,650 acres allotted to 280 Indians; 479.72 acres reserved for mission, agency, and school purposes; residue opened to settlement by proclamation of the President May 18, 1895, vol. 29, p. 868; act of Mar. 3, 1903, vol. 32, p. 1001. June 21, 1906. (34 Stat., 302.)
Kiowa and Comanche..... (Under Kiowa School.) Tribes: Apache, Comanche, Delaware, and Kiowa.		Treaty of Oct. 21, 1867, vol. 15, pp. 581 and 589; agreement made Oct. 6, 1892; ratified by act of June 6, 1900, vol. 31, p. 676, ceding 2,488,893 acres, of which 445,000 acres have been allotted to 3,444 Indians; 11,972 acres reserved for agency, school, religious, and other purposes. The residue, 2,033,583 acres opened to settlement (letter books 486, p. 440; 488, p. 478). President's proclamation of July 4, 1901, vol. 32, p. 1975; June 23, 1902, vol. 32, p. 2007; Sept. 4, 1902, vol. 32, p. 2026, and Mar. 29, 1904, vol. 33, p. 2340. Of the 480,000 acres grazing land set apart under act of June 6, 1900, 1,841.92 acres were reserved for town sites under act Mar. 20, 1906 (34 Stat. L., 801), 82,059.52 acres were allotted to 513 Indians under act of June 5, 1906 (34 Stat. L., 213), and 480 acres allotted to 3 Indians under act of June 5, as amended by act Mar. 7, 1907 (34 Stat. L., 1018). The remaining 395,618.56 acres were turned over to the General Land Office for disposition under acts of June 5 and June 28, 1906, and proclamation of Sept. 19, 1906. The General Land Office reports the sale and entry of approximately 369,961.12 acres under act of June 5, and of 21,251.75 acres under act of June 28, 1906, to June 30, 1909. (See 87404-1909.) (See 75344-1908.) Under act May 29, 1908 (35 Stat., 471), and act June 25, 1910 (36 Stat., 861), 20,498 acres allotted to 169 Indians.
Modoc..... (Under Seneca School.) Tribe: Modoc.		Agreement with Eastern Shawnees made June 23, 1874 (see Ann. Rept., 1882, p. 271), and confirmed in Indian appropriation act approved Mar. 3, 1875, vol. 18, p. 447. Lands all allotted—3,966 acres allotted to 68 Indians, 8 acres reserved for church and cemetery purposes, 2 acres for school, and 24 acres for timber. (Letter book 220, p. 102.) Act Mar. 3, 1909. (35 Stat., 752.)
Oakland..... (Under Ponca School.) Tribes: Tonkawa and Lipan.		Act of May 27, 1878, vol. 20, p. 84. (See Ann. Rept. for 1882, p. LXII.) (See deed dated June 14, 1883, from Cherokee, vol. 6, Indian Deeds, p. 476.) (See deed from Nez Percé, May 22, 1885, vol. 6, Indian Deeds, p. 504.) 11,456 acres allotted to 73 Indians; 160.50 acres reserved for government and school purposes. The residue, 79,276.60 acres, opened to settlement (letter book 257, p. 240). Agreement made Oct. 21, 1891, ratified by Indian appropriation act approved Mar. 3, 1893, vol. 27, p. 644. (For text, see Ann. Rept., 1893, p. 524.)

¹ Partly surveyed.

TABLE 5.—General data for each Indian reservation, under what agency or school, tribes occupying or belonging to it, area not allotted or specially reserved, and authority for its establishment—Continued.

Name of reservation and tribe.	Area (unallotted).	Date of treaty, law, or other authority establishing reserve.
OKLAHOMA—continued.		
Osage (Under Osage School.) Tribes: Great and Little Osage.	<i>Acres.</i>	Article 16, Cherokee treaty of July 19, 1866, vol. 14, p. 804; order of Secretary of the Interior, Mar. 27, 1871; act of June 5, 1872, vol. 17, p. 228. (See deed dated June 14, 1883, from Cherokee, vol. 6, Indian Deeds, p. 482.) (See act of June 28, 1906 (34 Stats., 539), act of Mar. 3, 1909 (35 Stats., 787), and Public Resolution No. 51, approved Feb. 28, 1909. 2,230 Indians have been allotted 1,065,134.31 acres (3 selections). Since July 1, 1909, these 2,230 Indians have been allotted 1,465,350 acres from surplus lands, and 5,178.53 acres have been reserved for church, town-site, and railroad purposes. Act Mar. 3, 1909. (35 Stat., 778.)
Oto (Under Oto School.) Tribe: Oto and Missouri.		Act of Mar. 3, 1881, vol. 21, p. 381; order of the Secretary of the Interior, June 25, 1881. (See deed dated June 14, 1883, from Cherokee, vol. 6, Indian Deeds, p. 479.) Under acts of Feb. 8, 1887 (24 Stats., 388), Feb. 28, 1891 (26 Stats., 794), and Apr. 21, 1904 (33 Stat., 189), 128,251 acres were allotted to 514 Indians (885 allotments—see L. B. 929, p. 326), 720 acres were reserved for agency, school, church, and cemetery purposes, and 640 acres set aside for tribal uses.
Ottawa (Under Seneca School.) Tribe: O t t a w a o f Blanchards Fork and Roche de Beauf.	¹ 1,587	Treaty of Feb. 23, 1867, vol. 15, p. 513; 12,995 acres were allotted to 160 Indians; 557.95 acres were authorized to be sold by act of Mar. 3, 1891 (vol. 26, p. 989). The residue, 1,587.25 acres, unallotted. (Letter book 229, p. 115.)
Pawnee (Under Pawnee School.) Tribe: Pawnee.		Act of Apr. 10, 1876, vol. 19, p. 29. (Of this 230,014 acres are Cherokee and 53,006 acres are Creek lands. See deed dated June 14, 1883, from Cherokee, vol. 6, Indian Deeds, p. 470.) 112,701 acres allotted to 820 Indians; 840 acres were reserved for school, agency, and cemetery purposes; the residue, 109,320 acres, opened to settlement. (Letter books 261, p. 388, and 263, p. 5.) Agreement made Nov. 23, 1892, ratified by act of Mar. 3, 1893, vol. 27, p. 644. (For text see Ann. Rept., 1893, p. 526.)
Peoria (Under Seneca School.) Tribes: Kaskaskia, Mi- ami, Peoria, Pianka- shaw, and Wea.		Treaty of Feb. 23, 1867, vol. 15, p. 513. 43,334 acres allotted to 218 Indians. The residue, 6,313.27 acres, sold under act of May 27, 1902. (32 Stats, 245.)
Ponca (Under Ponca School.) Tribe: Ponca.	² 320	Acts of Aug. 15, 1876, vol. 19, p. 192; Mar. 3, 1877, vol. 19, p. 287; May 27, 1878, vol. 20, p. 76, and Mar. 3, 1881, vol. 21, p. 422. (See deed dated June 14, 1883, from Cherokee, vol. 6, Indian Deeds, p. 473.) There have been allotted to 782 Indians 100,734 acres, and reserved for agency, school, mission, and cemetery purposes 523.56 acres, leaving unallotted and unreserved 320 acres. (Letter books 302, p. 311, and 813, p. 401.) Indian appropriation act approved Apr. 21, 1904, vol. 33, p. 217.
Potawatomi (Under Shawnee School.) Tribes: Absentee Shaw- nee and Potawatomi.		Treaty of Feb. 27, 1867, vol. 15, p. 531; act of May 23, 1872, vol. 17, p. 159. (222,716 acres are Creeks ceded lands; 365,851 acres are Seminole lands.) Agreements with citizen Potawatomi June 25 and Absentee Shawnees June 26, 1890; ratified and confirmed in the Indian appropriation act of Mar. 3, 1891, vol. 26, pp. 1016-1021. 215,679.42 acres allotted to 1,489, Potawatomi, and 70,791.47 acres allotted to 563 Absentee Shawnees, and 510.63 acres reserved for Government purposes; the residue opened to settlement by the President's proclamation of Sept. 18, 1891, vol. 27, p. 989. (See letter book 222, pp. 442, 444, and Ann. Rept. for 1891, p. 677.)
Quapaw (Under Seneca School.) Tribe: Quapaw.		Treaties of May 13, 1833, vol. 7, p. 424, and of Feb. 23, 1867, vol. 15, p. 513. 56,245.21 acres allotted to 248 Indians, 400 acres reserved for school and 40 acres for church purposes. (Letter book 335, p. 326.) Agreement of Mar. 23, 1893, ratified in Indian appropriation act approved Mar. 2, 1895, vol. 28, p. 907. Agreement of Jan. 2, 1899, ratified in Indian appropriation act approved Mar. 3, 1901, vol. 31, p. 1067. Act of Mar. 3, 1903, vol. 32, p. 997.
Sauk and Fox (Under Sauk and Fox School.) Tribes: Ottawa, Sauk and Fox of the Mississippi.		Treaty of Feb. 18, 1867, vol. 15, p. 495; agreement June 12, 1890; ratified by act of Feb. 13, 1891, vol. 26, p. 749. 87,683.64 acres allotted to 548 Indians, and 800 acres reserved for school and agency purposes; the residue opened to settlement by the President's proclamation Sept. 18, 1891, vol. 27, p. 989. (See letter book 222, p. 169, and Ann. Rept. for 1891, p. 677.)

TABLE 5.—General data for each Indian reservation, under what agency or school, tribes occupying or belonging to it, area not allotted or specially reserved, and authority for its establishment—Continued.

Name of reservation and tribe.	Area (unallotted).	Date of treaty, law, or other authority establishing reserve.
OKLAHOMA—continued.		
Seminole..... (Under Union Agency.) Tribe: Seminole.	<i>Acres.</i> 4,854	Treaty of Mar. 21, 1866, vol. 14, p. 755. (See Creek agreement, Feb. 14, 1881, Ann. Rept., 1882, p. LIV, and deficiency act of Aug. 5, 1882, vol. 22, p. 265.) Agreement of Mar. 16, 1889. (See Indian appropriation act approved Mar. 2, 1889.) Agreement recorded in treaty book, vol. 3 p. 35. Agreement made Dec. 16, 1897, ratified by act of July 1, 1898, vol. 30, p. 567. Agreement of Oct. 7, 1899, ratified by act of June 2, 1900, vol. 31, p. 250. Approximately 3,000 Indians have been allotted 361,000 acres.
Seneca..... (Under Seneca School.) Tribe: Seneca.		Treaties of Feb. 23, 1831, vol. 7, p. 348; of Dec. 29, 1832, vol. 7, p. 411, and of Feb. 23, 1867, vol. 15, p. 513. 41,813 acres allotted to 435 Indians; 104.22 acres reserved for Government, church, and school purposes. Agreement of Dec. 2, 1901, ratified by act of May 27, 1902, vol. 32, p. 262.
Shawnee..... (Under Seneca School.) Tribes: Seneca and Eastern Shawnee.		Treaties of July 20, 1831, vol. 7, p. 351; of Dec. 29, 1832, vol. 7, p. 411; of Feb. 23, 1867, vol. 15, p. 513, and agreement with Modocs, made June 23, 1874 (see Ann. Rept., 1882, p. 271), confirmed by Congress in Indian appropriation act approved Mar. 3, 1875, vol. 18, p. 447. 12,745 acres, allotted to 117 Indians; 86 acres reserved for agency purposes (letter books 208, p. 266, and 233, p. 207); the residue, 2,543 acres, sold (agreement of Dec. 2, 1901, ratified by act of May 27, 1902, vol. 32, p. 262).
Wichita..... (Under Kiowa Agency.) Tribes: Ioni, Caddo, Comanche, Delaware, Towa-kon-i, Waco, and Wichita.		(See treaty of July 4, 1866, with Delawares, art. 4, vol. 14, p. 794.) Unratified agreement, Oct. 19, 1872. (See Ann. Rept., 1872, p. 101.) Agreement made June 4, 1891, ratified by act of Mar. 2, 1895, vol. 28, p. 895. 152,714 acres allotted to 957 Indians; 4,151 acres reserved for agency, school, religious, and other purposes. The residue, 586,468 acres, opened to settlement (letter book 490, p. 90). President's proclamation of July 4, 1901, vol. 32, p. 1975. Unoccupied Chickasaw and Choctaw leased lands west of the North Fork of the Red River. Act of May 4, 1896, vol. 29, p. 113. President's proclamation, Mar. 16, 1896, vol. 29, p. 878. Act of June 6, 1900 (31 Stat., 680).
Wyandot..... (Under Seneca School.) Tribe: Wyandot.	¹ 535	Treaty of Feb. 23, 1867, vol. 15, p. 513. 20,942 acres allotted to 244 Indians, 16 acres to churches, etc., leaving 534.72 acres unallotted (letter book 228, p. 332).
Total.....	3,600,201	
OREGON.		
Grande Ronde..... (Under Siletz School.) Tribes: Kalapuya, Clackamas, Cow Creek, Lakmlut, Marys River, Molala, Nestucca, Rogue River, Santiam, Shasta, Tumwater, Umpqua, Wapato, and Yamhill.		Treaties of Jan. 22, 1855, vol. 10, p. 1143, and of Dec. 21, 1855, vol. 12, p. 982; Executive order June 30, 1857. 440 acres reserved for Government use and 32,983 acres allotted to 269 Indians. (See letter book 210, p. 328.) Act of Apr. 28, 1904, vol. 33, p. 567, amending and ratifying agreement of June 27, 1901.
Klamath..... (Under Klamath School.) Tribes: Klamath, Modoc, Palute, Pit River, Walpate, and Yahuskin band of Snake (Shoshoni).	² 811,802	Treaty of Oct. 14, 1864, vol. 16, p. 707. Act of May 27, 1902 (32 Stat., 260). 207,373 acres allotted to 1,345 Indians; 6,094.77 acres reserved for agency, school, and church purposes. Indian appropriation act approved Apr. 21, 1904, vol. 33, p. 202; act of Mar. 3, 1905, vol. 33, p. 1033, and act of June 21, 1906 (34 Stat., 367). (See act of Mar. 3, 1909 (35 Stat. L., 752), removal of Modocs in Oklahoma to Klamath and allotments thereto.)
Siletz..... (Under Siletz School.) Tribes: Alsea, Coquille, Kusan, Kwatami, Rogue River, Skoton, Shasta, Salustkea, Sluslaw, Tututni, Umpqua, and thirteen others.	3,200	Unratified treaty, Aug. 11, 1855; Executive orders Nov. 9, 1855, and Dec. 21, 1865, and act of Mar. 3, 1875, vol. 18, p. 446. Agreement Oct. 31, 1892, ratified by act of Aug. 15, 1894, vol. 28, p. 323. 44,459 acres allotted to 551 Indians. Residue, 177,563.66 acres (except 5 sections), ceded to United States. (See letter book 281, p. 358.) President's proclamation, May 16, 1895, vol. 29, p. 866. Acts of May 31, 1900, vol. 31, p. 233, and Mar. 3, 1901, vol. 31, p. 1085. Act of May 13, 1902 (36 Stat., 367).

Umatilla..... (Under Umatilla School.) Tribes: Cayuse, Umatilla, and Wallawalla.	Acres. 174,618	Treaty of June 9, 1855, vol. 12, p. 945, and act of Aug. 5, 1882, vol. 22, p. 297; Mar. 3, 1885, vol. 23, p. 340, and sec. 8 of act of Oct. 17, 1888, vol. 25, p. 559. (See orders Secretary of Interior, Dec. 4, 1888, Ann. Rept., 1891, p. 682.) 82,156 acres allotted to 1,112 Indians, 980 acres reserved for school and mission purposes. (See letter book 255, p. 132.) Act of July 1, 1902, vol. 32, p. 730.
Warm Springs..... (Under Warm Springs School.) Tribes: Des Chutes, John Day, Paiute, Tenino, Warm Springs, and Wasco.	1 322,760	Treaty of June 25, 1855, vol. 12, p. 963. 140,044 acres allotted to 965 Indians, and 1,195 acres reserved for church, school, and agency purposes. The residue, 322,108 acres, unallotted and unreserved (letter book 334, p. 295).
Total.....	1,212,380	
SOUTH DAKOTA.		
Crow Creek and Old Winnebago. (Under Crow Creek School.) Tribes: Lower Yanktonai, Lower Brulé, Minicoujou, and Two Kettle Sioux.	1 111,711	Order of department, July 1, 1863 (see Ann. Rept., 1863, p. 318); treaty of Apr. 29, 1868, vol. 15, p. 635, and Executive order, Feb. 27, 1885 (see President's proclamation of Apr. 17, 1885, annulling Executive order of Feb. 27, 1885; Ann. Rept. 1885, p. 11); act of Mar. 2, 1889, vol. 25, p. 888; President's proclamations, Feb. 10, 1890, vol. 26, p. 1554. There have been allotted to 842 Indians 172,212 acres, and reserved for agency, school, and religious purposes 1,076.90 acres, leaving a residue of 111,711 acres (letter books 302, p. 443; 372, p. 433; 373, p. 347). Lands are now in process of allotment.
Lake Traverse..... (Under Sisseton School.) Tribes: Sisseton and Wahpeton Sioux.		Treaty of Feb. 19, 1867, vol. 15, p. 505; agreement, Sept. 20, 1872; confirmed in Indian appropriation act approved June 22, 1874, vol. 18, p. 167. (See pp. 328-337, Comp. Indian Laws.) Agreement, Dec. 12, 1889, ratified by act of Mar. 3, 1891, vol. 26, pp. 1035-1038. 308,838 acres allotted to 2,006 Indians, 32,840.25 acres reserved for State school purposes, 1,347.01 acres for church and agency purposes; the residue, 574,678.40 acres, opened to settlement. (See President's proclamation, Apr. 11, 1892, vol. 27, p. 1017.)
Cheyenne River..... (Under Cheyenne River School.) Tribes: Blackfeet, Minicoujou, Sans Arcs, and Two Kettle Sioux.	473,400	Treaty of Apr. 29, 1868, vol. 15, p. 635, and Executive orders, Jan. 11, Mar. 16, and May 20, 1875, and Nov. 28, 1876; agreement ratified by act of Feb. 28, 1877, vol. 19, p. 254, and Executive orders, Aug. 9, 1879, and Mar. 20, 1884. Unratified agreement of Oct. 17, 1882. (For modification see sundry civil appropriation act approved Mar. 3, 1883, vol. 22, p. 624; for text see Misc. Indian Docs., vol. 14, p. 305.) Act of Apr. 30, 1888, vol. 25, p. 94, not accepted. Act of Mar. 2, 1889, vol. 25, p. 888. President's proclamation of Feb. 10, 1890, vol. 26, p. 1554. (See act of Feb. 20, 1896, vol. 29, p. 10.) President's proclamations of Feb. 7, 1903, vol. 32, p. 2035, and Mar. 30, 1904, vol. 33, p. 2340. 787,000 acres have been allotted to 2,548 Indians. (See L. B. 825, p. 321.) Act of May 29, 1908 (35 Stat. L., 460). Under President's proclamation of Aug. 21, 1909, 1,158,010 acres were opened to settlement, leaving unallotted and unreserved 473,400 acres.
Lower Brulé..... (Under Lower Brulé School.) Tribes: Lower Brulé and Lower Yanktonai Sioux.	1 175,471	Treaty of Apr. 29, 1868, vol. 15, p. 635, and Executive orders, Jan. 11, Mar. 16, and May 20, 1875, and Nov. 28, 1876; agreement ratified by act of Feb. 28, 1877, vol. 19, p. 254, and Executive orders, Aug. 9, 1879, and Mar. 20, 1884. Unratified agreement of Oct. 17, 1882. (For modification see sundry civil appropriation act approved Mar. 3, 1883, vol. 22, p. 624; for text see Misc. Indian Docs., vol. 14, p. 305.) Act of Apr. 30, 1888, vol. 25, p. 94, not accepted. Act of Mar. 2, 1889, vol. 25, p. 888. President's proclamation of Feb. 10, 1890, vol. 26, p. 1554. (See act of Feb. 20, 1896, vol. 29, p. 10.) Agreement made Mar. 1, 1898, ratified by act of Mar. 3, 1899, vol. 30, p. 1362, ceding 120,000 acres to the United States. 176,083 acres allotted to 706 Indians, and 964.06 acres reserved for agency, school, and religious purposes, leaving unallotted and unreserved 175,470.76 acres. (See letter book 498, p. 336.) (See act of Apr. 21, 1906, 34 Stats. 124 and 1048, and President's proclamation of Aug. 12, 1907.)

Puyallup..... (Under Cushman School.) Tribes: Muckleshoot, Nisqualli, Puyallup, Skwawksnamish, Stallakoom, and 5 others.	<i>Acres.</i>	Treaty of Medicine Creek, Dec. 26, 1854, vol. 10, p. 1132; Executive orders, Jan. 20, 1857, and Sept. 6, 1873, 17,463 acres allotted to 167 Indians. Agreement made Nov. 21, 1876, ratified by act of Feb. 20, 1893, vol. 27, p. 464. (For text see annual report 1893, p. 518.) The residue, 599 acres laid out as an addition to the city of Tacoma, has been sold, with the exception of 39.79 acres reserved for school, and 19.43 acres for church and cemetery purposes, under acts of Mar. 3, 1893 (27 Stats., 633, June 7, 1897 (30 Stats., 62), and act of June 21, 1906 (34 Stats., 377).
Quileute..... (Under Neah Bay School.) Tribe: Quileute.	¹ 837	Executive order, Feb. 19, 1889.
Quinalt..... (Under Cushman School.) Tribes: Quaitso and Quinalt.	² 158,784	Treaties of Olympia, July 1, 1855, and Jan. 25, 1856, vol. 12, p. 971; Executive order, Nov. 4, 1873. Under acts of Feb. 8, 1887 (24 Stats., 388), and Feb. 28, 1891 (26 Stats., 794), 690 Indians have been allotted 54,989.80 acres and 456.56 have been reserved for agency, lighthouse, and other purposes, leaving unallotted and unreserved 158,784 acres. Act Mar. 4, 1911 (36 Stat., 1545). Lands now being allotted.
Shoalwater..... (Under Cushman School.) Tribes: Shoalwater and Chehalis.	² 335	Executive order, Sept. 22, 1866, 55,535-7-1909.
Skokomish..... (Under Cushman School.) Tribes: Clallam, Skokomish, and Twana.		Treaty of Point No Point, Jan. 26, 1855, vol. 12, p. 933; Executive order, Feb. 25, 1874. Allotted in treaty reserve, 4,990 acres; residue, none. (See L. B., 895, p. 268.) Allotted in Executive order addition, known as the Fisher addition, 814 acres; residue, none. (L. B., 895, p. 285.) 62 allotments.
Snohomish or Tulalip..... (Under Tulalip School.) Tribes: Dwamish, Etakmur, Lummi, Snohomish, Sukwamish, and Swiwamish.	² 324	Treaty of Point Elliott, Jan. 22, 1855, vol. 12, p. 927; Executive order, Dec. 23, 1873. 22,166 acres allotted to 164 Indians; the residue, 8,930 acres, unallotted.
Spokane..... (Under Colville School.) Tribe: Spokane.	82,647	Executive order, Jan. 18, 1881. Agreement made Mar. 18, 1887, ratified by Indian appropriation act approved July 13, 1892, vol. 27, p. 139. (For text see Ann. Rept., 1892, p. 743.) Joint resolution of Congress of June 19, 1902, vol. 32, p. 744. Under act of May 29, 1908 (35 Stat. L., 458), approximately 626 Indians have been allotted 64,794 acres, and 1,247.30 acres set aside for church, school, agency, and town-site purposes. By proclamation of May 22, 1909, the President opened the surplus lands to settlement. 5,781 acres classified as agricultural land, 82,647.50 acres classified as timber reserved for tribal use. Act May 29, 1908.
Squaxon Island (Klahchemin). (Under Cushman School.) Tribes: Nisqualli, Puyallup, Skwawksnamish, Stallakoom, and 5 others.		Treaty of Medicine Creek, Dec. 26, 1854, vol. 10, p. 1132; land all allotted, 1,494.15 acres, to 23 Indians.
Swinomish (Perrys Island). (Under Tulalip School.) Tribes: Dwamish, Etakmur, Lummi, Snohomish, Sukwamish, and Swiwamish.		Treaty of Point Elliott, Jan. 22, 1855, vol. 12, p. 927; Executive order, Sept. 9, 1873. Allotted, 7,359 acres to 71 Indians; reserved for school, 89.80 acres; unallotted, 0.35 acre.
Yakima..... (Under Yakima School.) Tribes: Kikitat, Palooos, Topnish, Wasco, and Yakima.	³ 796,753	Treaty of Walla Walla, June 9, 1855, vol. 12, p. 951. Agreement made Jan. 13, 1885, ratified by Indian appropriation act approved Mar. 3, 1893, vol. 27, p. 631. (For text see Misc. Indian Docs., vol. 41, p. 227; see also Ann. Rept., 1893, pp. 520-521, and Senate Ex. Docs. No. 21, 49th Cong., 1st sess., and No. 45, 50th Cong., 1st sess.) Executive order, Nov. 28, 1892. Agreement, Jan. 8, 1894, ratified by act of Aug. 15, 1894, vol. 28, p. 320. 296,407 acres allotted to 3,137 Indians, and 1,020.24 acres reserved for agency, church, and school purposes. (See letter books 354, p. 419; 416, p. 263, and 879, p. 243.) Act of Dec. 21, 1904 (33 Stats., 595), recognizing claim of Indians to 293,837 acres additional land, subject to the right of bona fide settlers or purchasers, acquired prior to Mar. 5, 1904. (See 39848, 1909.) Act Mar. 6, 1906 (34 Stat., 53), and act May 6, 1910 (36 Stat., 348).

Lac Court Oreille..... (Under Hayward School.) Tribe: Lac Court Oreille Band of Chippewa of Lake Superior.	<i>Acres.</i> 1 403	Treaty of Sept. 30, 1854, vol. 10, p. 1109; lands withdrawn by General Land Office, Nov. 22, 1860, Apr. 4, 1865. (See report by Secretary of the Interior, Mar. 1, 1873.) Act of May 29, 1872, vol. 17, p. 190. 68,511 acres allotted to 876 Indians. Act of Feb. 3, 1903, vol. 32, p. 795.
Lac du Flambeau..... (Under Lac du Flambeau School.) Tribe: Lac du Flambeau Band of Chippewa of Lake Superior.	26, 153	Treaty of Sept. 30, 1854, vol. 10, p. 1109, lands selected by Indians. (See report of Superintendent Thompson, Nov. 14, 1863, and report to Secretary of the Interior, June 22, 1866.) Department order of June 26, 1866. Act of May 29, 1872, vol. 17, p. 190. 44,877 acres allotted to 589 Indians; act of Feb. 3, 1903 (32 Stats., 795), leaving unallotted 26,153.40 acres.
La Pointe (Bad River)..... (Under La Pointe School.) Tribe: La Pointe Band of Chippewa of Lake Super- ior.	46, 613	Treaty of Sept. 30, 1854, vol. 10, p. 1109. 368.91 acres patented under art. 10; 195.71 acres fishing ground. 83,871 acres allotted to 1,063 Indians. (See letter to General Land Office, Sept. 17, 1859, and letter book 381, p. 49.) Acts of Feb. 11, 1901 (31 Stats., 766), and Mar. 2, 1907 (34 Stats., 1217), leaving unallotted and unreserved 46,613 acres.
Red Cliff..... (Under La Pointe School.) Tribe: La Pointe Band (Buffalo Chief) of Chip- pewa of Lake Superior.		Treaty of Sept. 30, 1854, vol. 10, p. 1109; Executive order, Feb. 21, 1856. (See Indian Office letters of Sept. 3, 1858, and May 25, 1863, and General Land Office letter of May 27, 1863. See Executive orders. See report of Superintendent Thompson, May 7, 1863. Lands withdrawn by General Land Office May 8 and June 3, 1863.) 2,535.91 acres allotted to 35 Indians under treaty; of the residue 11,566.90 acres were allotted to 169 Indians under joint resolution of Feb. 20, 1895, vol. 28, p. 970, and 40.10 acres were reserved for school purposes.
Menominee..... (Under Keshena School.) Tribe: Menominee.	* 231, 680	Treaties of Oct. 18, 1848, vol. 9, p. 952; of May 12, 1854, vol. 10, p. 1064, and Feb. 11, 1856, vol. 11, p. 679.
Oneida..... (Under Oneida School.) Tribe: Oneida.		Treaty of Feb. 3, 1838, vol. 7, p. 566. 65,402.13 acres allotted to 1,501 Indians; remainder, 84.08 acres, reserved for school purposes.
Stockbridge..... (Under Keshena School.) Tribes: Stockbridge and Munsee.		Treaties of Nov. 24, 1848, vol. 9, p. 955; Feb. 5, 1856, vol. 11, p. 663, and of Feb. 11, 1856, vol. 11, p. 679; act of Feb. 6, 1871, vol. 16, p. 404. (For area, see act of June 22, 1874, vol. 18, p. 174.) 167 Indians allotted 8,920 acres. Patents in fee, act June 21, 1906 (34 Stats., 382). Act Mar. 3, 1893 (27 Stat., 744).
Total.....	304, 849	
WYOMING.		
Wind River..... (Under Shoshone School.) Tribes: Northern Arapaho and Eastern Band of Shoshoni.	* 95, 307	Treaty of July 3, 1868, vol. 15, p. 673; acts of June 22, 1874, vol. 18, p. 166, and Dec. 15, 1874, vol. 18, p. 291; Executive order, May 21, 1887. Agreement made Apr. 21, 1896, amended and accepted by act of June 7, 1896 (vol. 30, p. 93); amendment accepted by Indians July 10, 1897. (See Land Div. letter book 359, p. 468.) Act of Mar. 3, 1905, ratifying and amending agreement with Indians of Apr. 21, 1904. (See vol. 33, p. 1016.) President's proclamation, June 2, 1906, opening ceded part to settlement. It contained 1,472,844.15 acres. (See letter book 866, p. 157.) Reserved for Mail Camp, 120 acres; reserved for Mail Camp Park, 40 acres; reserved for bridge purposes, 40 acres. Subject to disposition under President's proclamation, 1,438,633.66 acres. 92.44 acres reserved by Secretary to complete allotments to Indians on ceded part. 223,236 acres were allotted to 2,154 Indians, and 1,792.05 acres were reserved for agency, school, church, cemetery purposes, under acts of Feb. 8, 1887 (24 Stats., 388), as amended by act of Feb. 28, 1891 (26 Stats., 794), and treaty of July 3, 1868 (15 Stats., 673), leaving unallotted and unreserved 95,307.15 acres.
Total.....	95, 307

¹ Some of the figures in this table as printed prior to 1896 were taken from reports of the superintendent of Indian schools. As revised, they are all taken from the reports of the Commissioner of Indian Affairs. Prior to 1882 the figures include the New York schools.

² Indian children in public schools under contract are included in the average attendance, but the schools are not included in the number of schools.

³ Decrease.
